

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

BOARD OF ESTIMATE AND APPORTIONMENT.

CITY OF NEW YORK.

MAYOR'S OFFICE, }
CITY HALL. }

SATURDAY, JANUARY 3, 1880—2 o'clock P. M.

The Board met in pursuance of an adjournment.

Present—All the members, viz.:

EDWARD COOPER, *the Mayor of the City of New York.*

JOHN KELLY, *the Comptroller of the City of New York.*

JORDAN L. MOTT, *the President of the Board of Aldermen.*

JOHN WHEELER, *the President of the Department of Taxes and Assessments.*

On motion, the reading of the minutes of the meeting held December 31, 1879, was dispensed with.

The COMPTROLLER offered for adoption the following preamble and resolution, giving the reasons for the action of the Board on the objections to and rectifications of the Provisional Estimate for the year 1880, made by the Board of Aldermen.

Whereas, The Board of Aldermen at a meeting held on November 24, 1879, made certain "objections to and rectifica-

tions of" the Provisional Estimates for the year 1880 which were presented to the Board of Estimate and Apportionment on November 26, 1879; and,

Whereas, The Board of Estimate and Apportionment duly considered such objections and rectifications, as provided by Section 112 of the Laws of 1873; and,

Whereas, The Board of Estimate and Apportionment, in making the Final Estimate for the year 1880, at a meeting held on December 31, 1879, overruled the objections and rectifications made by the Board of Aldermen in some cases, and agreed to and adopted them in other cases; therefore

Resolved, That "the reasons" for such action by the Board of Estimate and Apportionment, in regard to each item, are as follows :

1. The increase of the appropriation made to the Police Department, for "Salaries of Clerks, Deputies, Stenographers, &c.," from \$40,000 to \$60,000, was agreed to because that amount was believed to be necessary to pay the salaries of all the employees required by the Board of Police, other than the uniformed force, and the employees in the Street Cleaning Bureau.

2. The increase of the appropriation made to the Fire Department, for the "Repair Shop Pay Roll," from \$45,000 to \$50,000, was approved and allowed, for the reason that the increased amount was believed to be necessary to pay the force of mechanics and others required in the Repair Shops of the Fire Department in 1880.

3. The increase of the appropriation made to the Fire Department, for the "Bureau of Chief of Department, Pay-roll," from \$32,700 to \$37,700, was overruled, because the reasons given by the Commissioners of the Fire Department for the proposed appointment of two additional Chiefs of Battalion at salaries of \$2,500 each per annum, did not satisfy the Board of Apportionment that their appointment was necessary in the interest of the public service.

4. The increase of the appropriation made for the "Salaries of Clerks and Officers of the Board of Aldermen," from \$16,200 to \$18,000, was overruled, because the amount allowed for the purpose in the Provisional Estimate was deemed sufficient.

The CHAIRMAN put the question whether the Board would agree with said preamble and resolution.

Which was decided in the affirmative by the following vote, viz. :

Affirmative—The Mayor of the City of New York (Chairman), the Comptroller of the City of New York, the President of the Board of Aldermen, and the President of the Department of Taxes and Assessments—4.

The PRESIDENT OF THE DEPARTMENT OF TAXES AND ASSESSMENTS presented a bill of Vanderpoel, Green & Cuming, and William P. Prentice, for services in the matter of *The People vs. The Board of Health*.

Which was referred to, and the original paper sent to the Comptroller.

The CHAIRMAN moved that when the Board adjourn it do so to meet on Monday, January 5, 1880, at 11 o'clock A. M.

Which was agreed to.

On motion, the Board adjourned.

DEPARTMENT OF PUBLIC WORKS,
COMMISSIONER'S OFFICE, ROOM 19, CITY HALL, }
NEW YORK, January 27, 1880. }

Hon. EDWARD COOPER, Mayor, and Chairman

Board of Estimate and Apportionment :

Sir,—In the Final Estimate for 1880 your Board allowed the sum of \$60,000, asked in the Departmental Estimate for laying four-foot pipes in Eighth avenue and in Ninetieth street, in place of the six-foot pipes, forming part of the conduit for bringing water into the city reservoirs. The Departmental Estimate was made last August, since which time the prices of iron, lead, and labor required for this work have risen very considerably, so that the lowest bids for the contracts for furnishing and laying the new pipe, received and opened at the letting on the 23d inst., amount in the aggregate to \$75,293.25. The contracts cannot be signed unless the deficiency in the appropriation is supplied, as their estimated cost becomes a liability against the appropriation as soon as they are executed. The old six-foot pipes are now, and have been for years, in imminent danger of breaking and causing great injury. The large sums expended upon them for repairs have been a charge upon the appropriation for "Aqueduct—Repairs and Maintenance," and any repairs they may require hereafter in consequence of any delay or inability to substitute the four-foot pipes would have to be charged to that account. I have to request, therefore, that the sum of \$15,500 be transferred from the appropriation for "Aqueduct—Repairs and Maintenance and Strengthening" for 1880, to the appropriation for

"Expense of laying four-feet Croton-mains, etc.," for 1880, in order that the contracts may be executed as early as possible.

Very respectfully,

ALLAN CAMPBELL,

Commissioner of Public Works.

Whereupon the COMPTROLLER offered for adoption the following resolution :

Resolved, That the sum of fifteen thousand five hundred dollars be and the same is hereby transferred from the appropriation made to the Department of Public Works for the year 1880, entitled "Aqueduct—Repairs, Maintenance, and Strengthening," to the appropriation made to the same Department for the year 1890, entitled "Expense of laying four-foot Croton-mains, etc.," which is insufficient.

The CHAIRMAN put the question, whether the Board would agree with said resolution.

Which was agreed to by the following vote, viz. :

Affirmative—*The Mayor of the City of New York (Chairman), the Comptroller of the City of New York, the President of the Board of Aldermen, and the President of the Department of Taxes and Assessments—4.*

The COMPTROLLER presented the following communication :

FINANCE DEPARTMENT,
COMPTROLLER'S OFFICE, }
February 9, 1880. }

To the Board of Estimate and Apportionment :

In the Final Estimate for each of the years 1879 and 1880, an appropriation of \$14,400 was made under the title of "Sal-

aries of Janitors of Civil and Police Courts," to pay the salaries of twelve Janitors, at \$1,200 each per annum, in the Civil and Police Courts.

The following condition was attached to the appropriation in each year :

"No portion of this appropriation, however, is to be paid by the Comptroller until the question is judicially determined, on an adjusted case or otherwise, in whom by law the appointment of Janitors of these Courts is placed. It is claimed on one hand that the appointment is in the Board of Police Justices and the Justices of the Civil Courts, and on the other, that the appointment is in the Commissioner of Public Works. The City is not to be burdened with the expense of two sets of Janitors."

I have ascertained that the following are the facts as to the appointment of Janitors of the Civil and Police Courts, from January 1, 1879, to the present time, viz. :

District and Police Court Janitors since January 1, 1879.

First District Court—Patrick Callahan, appointed by the Civil Justice; Patrick Callahan, appointed by Department of Public Works.

Second District Civil Court—James McCullough, appointed by the Civil Justice; James McCullough, appointed by the Department of Public Works.

Third District Civil Court and Second District Police Court—Richard B. Collard, appointed by the Civil Justice; Jeremiah G. Kemp, appointed by the Board of Police Justices; Wm. J. Kennedy, appointed by the Department of Public Works.

Fourth District Civil Court—John Murphy, appointed by the Civil Justice; John Murphy, appointed by the Department of Public Works.

Fifth District Civil Court—William Clancy, appointed by the Civil Justice; John O'Brien, appointed by the Department of Public Works.

Sixth District Civil Court—Philip Cummiskey, appointed by the Civil Justice; John Fagan, appointed by the Department of Public Works.

Seventh District Civil Court and Fourth District Police Court—No appointment by Civil Justice; no appointment by Board of Police Justices; Patrick Bergin, appointed by Department of Public Works.

Eighth District Civil Court—Samuel Barclay, appointed by Civil Justice; Samuel Barclay, appointed by Department of Public Works.

Ninth District Civil Court and Fifth District Police Court—William H. Liscomb, appointed by Civil Justice; William H. Liscomb, appointed by Department of Public Works; no appointment by Board of Police Justices.

Tenth District Civil Court and Sixth District Police Court—Daniel Kelly, appointed by Civil Justice; David Golden, appointed by Department of Public Works; no appointment by Board of Police Justices.

First District Police Court—Julius Boh, appointed by Department of Public Works; no appointment by Board of Police Justices.

Third District Police Court—Edward Brucks, appointed by Department of Public Works; no appointment by Board of Police Justices.

In September, 1879, James McCullough, Janitor of the Second District Civil Court, John Murphy, Janitor of the Fourth District Civil Court, and Samuel Barclay, Janitor of the Eighth District Civil Court, presented their claims for salary to this Department. It was ascertained that each of the persons named held the office of Janitor by the appointment of

the Justice of the Court, and also by the appointment of the Commissioner of Public Works. As no legal reason existed why their salaries should not be paid, as there was no conflict of authority in these cases, I recommended the Board of Estimate and Apportionment to pass a resolution authorizing the Comptroller to pay the salaries of these Janitors. This resolution was adopted on the 30th of September, 1879, and under it the salaries of these three persons have been paid for the year 1879.

William J. Kennedy, who is acting as Janitor of the Third District Civil Court, or rather of the building wherein that court is located, by the appointment of the Commissioner of Public Works, brought suit against the City for his claim for salary as Janitor, and the Court of Appeals has recently rendered a decision in the case, dismissing the proceedings, for the reason that the case as made up and presented to the court did not show all the facts. The effect of the decision is to prevent the payment of salary to the Janitors of the Police and District Courts, where there are contesting incumbents of the office, until the courts pass upon an action or submission to which all the claimants are parties, and then only when the power of appointment of Janitors is exclusively vested either in the Justices of the Courts or in the Commissioner of Public Works, as there cannot be two sets of Janitors paid by the City.

In the meantime, I see no reason why the salaries of the janitors of the Courts where no conflict of authority exists in their appointment should not be paid, and as no such conflict exists in the cases of Patrick Callahan, Janitor of the First District Civil Court; James McCullough, Janitor of the Second District Civil Court; John Murphy, Janitor of the Fourth District Civil Court; Patrick Bergin, Janitor of the Seventh District Civil Court and Fourth District Police Court; Samuel

Barclay, Janitor of the Eighth District Civil Court ; William H. Liscomb, Janitor of the Ninth District Civil Court and Fifth District Police Court : Julius Boh, Janitor of the First District Police Court ; and Edward Brucks, Janitor of the Third District Police Court, I recommend the adoption of a resolution, herewith submitted, authorizing the Comptroller to pay said persons the salaries now due and to become due to them as the Janitors of said Courts.

Respectfully,

JOHN KELLY,
Comptroller.

And offered for adoption the following resolution :

Resolved, That the Comptroller be, and he is hereby, authorized to pay the salaries now due and which may hereafter become due, under the appropriation made conditionally for "Salaries of Janitors of Civil and Police Courts," in the Final Estimate for each of the years 1879 and 1880, of the following persons, to wit :

Patrick Callahan, Janitor of the First District Civil Court.
James McCullough, Janitor of the Second District Civil Court.

John Murphy, Janitor of the Fourth District Civil Court.
Patrick Bergin, Janitor of the Seventh District Civil Court and Fourth District Police Court.

Samuel Barclay, Janitor of the Eighth District Civil Court.
William H. Liscomb, Janitor of the Ninth District Civil Court and Fifth District Police Court.

Julius Boh, Janitor of the First District Police Court.
Edward Brucks, Janitor of the Third District Police Court.

Provided, however, if any conflict of authority arise affect-

ing any of the above persons, they shall no longer be entitled to payment of their salaries under this resolution ; and provided, further, that the pay-rolls of these persons shall be certified to the Finance Department by the officers from whom they hold appointments.

The CHAIRMAN put the question, whether the Board would agree with said resolution :

Which was agreed to by the following vote, viz. :

Affirmative—The Mayor of the City of New York (Chairman), the Comptroller of the City of New York, the President of the Board of Aldermen, and the President of the Department of Taxes and Assessments—4.

A communication was received from the Department of Charities and Correction, requesting the return of a resolution, adopted by said Department December 22, 1879, requesting the transfer of \$5,000 from the appropriation "Supplies—Department Public Charities and Correction," to the appropriation "For the Erection of a Building on Blackwell's Island, for use of Drug Department."

The Secretary was authorized to return said resolution, as requested.

The COMPTROLLER presented a communication from the "New York Association for Improving the Condition of the Poor," submitting a statement showing the disbursements by said association of the sum of \$4,900, appropriated by the Board of Estimate and Apportionment.

Which was placed on file.

The CHAIRMAN presented a communication from New York Eye and Ear Infirmary, acknowledging receipt of appropriation from the Excise Fund.

Which was placed on file.?

A statement was submitted showing the apparent balance of the appropriation to be \$221,916.35, which, under an opinion of the Counsel to the Corporation, also submitted, was the amount which should be paid by the City of New York.

At that meeting a resolution was adopted authorizing the further issue of "New York Bridge Bonds" to an amount not exceeding \$166,600, leaving bonds to the amount of \$55,316.35 still to be issued.

FINANCE DEPARTMENT—COMPTROLLER'S OFFICE, }
March 11, 1880. }

To the Board of Estimate and Apportionment :

Estimates in favor of Messrs. Decker & Quintard, contractors, for work done in improving and constructing Riverside avenue up to January 1, 1880, under chapter 447, Laws of

1876, have been received by the Finance Department from the Department of Public Parks. The estimates have been examined by the Auditor of Accounts, who has made a special report to the Comptroller, herewith submitted, in relation to his audit, explaining the reasons why certain items of work done had been suspended, and are not included in the amount audited and allowed by him, \$85,326.73, in accordance with the recommendation made by the Commission of Civil Engineers appointed by the Mayor, the Comptroller, and the Department of Public Parks.

To provide means to pay the amount found due the contractors, I recommend the adoption of a resolution, herewith submitted, authorizing the further issue of "Assessment Bonds" to the amount of \$90,000, under the provisions of the act referred to.

JOHN KELLY,
Comptroller.

CITY OF NEW YORK—FINANCE DEPARTMENT, }
COMPTROLLER'S OFFICE, March 10, 1880. }

Hon. JOHN KELLY,
Comptroller :

Sir,—On the 28th of October last I submitted for your approval my audit of the estimate in favor of Nicholas H. Decker and George W. Quintard, transmitted by the Department of Parks August 21st, amounting to \$37,234.67, being for work done in improving and constructing Riverside Drive, up to August 1st, 1879.

At the same time my reasons for the allowance and audit were fully set forth. Further action in this matter by the City was prevented by an injunction of the Supreme Court, obtained by John McEucroe, Jr. This injunction has now been dissolved.

The Department of Parks have forwarded additional estimates, of work done to January 1, 1880, as follows :

For work done to September 1, 1879.....	\$24,448 21
“ “ October 1, 1879.....	6,563 97
“ “ November 1, 1879.....	12,108 43
“ “ December 1, 1879.....	7,203 09
“ “ January 1, 1880.....	3,865 49

\$54,189 19

And by which it appears that the total amount of work performed up to January 1, 1880, was \$528,166 95

From this amount there is to be deducted the amount allowed for construction of parapet wall, erected in 1878, and the amount allowed for excavation outside of the limits of the avenue, as per my former report, and in accordance with the recommendation of the Commission of Engineers appointed by you to examine the work, viz 15,995 15

Value of work recognized as performed under the contract..... \$512,171 80

Less 30 per cent. retained, as per contract..... 153,651 54

\$358,520 26

Less engineers' fees, deducted..... 48,681 20

\$309,839 06

Less payments heretofore made on account \$224,012 33

Retained for lien..... 500 00

224,512 33

Leaving the amount payable to contractors, as-signs, or lienors.....

\$85,326 73

The estimates have been referred to Messrs. Haswell, Worthen, and Bogart, the engineers who were selected in the fall of 1878 by the Mayor, the Comptroller, and the Department of Parks, to examine and report upon the work then constructed.

After an examination of the work recently, they submit the following report :

NEW YORK, March 5, 1880.

Hon. JOHN KELLY, Comptroller :

Sir,—The Commission of Engineers appointed by you in the matter of the construction of Riverside avenue, submit the following in reference to an estimate of quantities of materials and work, dated January 1, 1880, and submitted to the Commission by the Auditor of your Department.

In accordance with our previous report, we suggest that the item of 25,437 16-100 cubic yards of excavation of earth should for the present be deducted from the estimate until a decision is arrived at with reference to the propriety of paying for excavation exterior to the boundary line of the avenue.

Also, that for the present the item of parapet wall be reduced to 455 cubic yards, being the amount reported as done in 1879.

The Riverside avenue is not yet complete in accordance with the contract, in reference to many details.

Although the present estimate of January 1, 1880, is submitted as for " items of completed work," yet we are advised by the Principal Assistant Engineer (in the absence of the Superintending Engineer, who is out of the country) that it is (under the provisions of paragraph P of the contract), only approximate, and that the quantities are below the amount of work actually performed.

As to the items embraced in this estimate (with the exception of those for parapet wall and earth excavation mentioned

above) we refer to the fact that the reserved percentage, amounting to over \$150,000, is available for perfecting and finishing the details of the work according to the specifications, and we consider that the amount of such reserve, properly applied, will fully suffice for this purpose.

We are, very respectfully,

(Signed) CHAS. H. HASWELL.

DEPARTMENT OF PUBLIC PARKS, 36 UNION SQUARE, }

The Hon. JOHN KELLY,

Comptroller :

My Dear Sir,—At the meeting of the Board held on the 18th instant, several estimates were passed for the contractors on the Riverside work, and I suppose they have been sent to you for payment. I voted against them, and refused to audit them, and wrote to you to that effect on the 20th instant.

I do not wish to delay the contractors, nor to give you any embarrassment in your action upon these estimates, in deciding whether you will pay them or not.

But there are questions about the work which will be raised, sooner or later, that is, questions whether the work has been done according to contract ; and whether an assessment can be laid and collected on the property for the work.

These questions will have to be met and determined before long. When the work has stood for a year or two, the settling and caving in of the avenue will show how poorly it was constructed, and if a suit is brought by the contractors for their money, or the property owners move in the courts for relief from assessments, the legal questions will then have to be determined.

From my examination of the work, and from my knowledge as a lawyer of these legal questions, I can foresee that this will happen, and I must act now in my determination whether to pay for the work or not, in view of what will very soon be discussed and talked of by everybody.

It is the characteristic of all the works done heretofore by this Department, that it has been excellent and thorough. I think that this standard ought to be kept up.

When Mr. Olmsted and Mr. Aldrich were removed from their supervision of this work, against my protest, I was satisfied that the work would not be well done. As it now stands, the work is not up to the average of common street construction work. This will all soon be made apparent to everybody, and I cannot help acting now according to what I know. I must, therefore, interpose my objection to these payments. It is not a question whether the thirty per centum reserved will cover the deficiencies. The work is radically bad and defective, and ought never to have been permitted, and it ought not to be paid for.

The reports of the Commission of Engineers, Messrs. Haswell, Worthen, and Bogart, bring some of these points to your attention, but there are others to which they do not allude, and as to the legal difficulties, they do not consider them. But before long these will be brought out to the public, and it will not be safe for you or for me not to foresee and protect the City against them.

I desire not to make any more formal or public protests against this work until I can confer with you.

Respectfully yours,

(Signed) SMITH E. LANE,

Commissioner Department Public Parks.

Hon. SMITH E. LANE,

Commissioner Department of Parks.

Sir,—I am in receipt of your letter of the 24th inst., relating to the construction of Riverside avenue, in which you inform

me that you voted against the audit of the estimates forwarded by the Park Department on the 20th inst.

You inform me that there are questions about the work which will be raised sooner or later, whether the work has been done according to contract, and whether an assessment can be laid and collected on the property for the work; and you say that from your examination of the work, and from your knowledge as a lawyer of these legal questions, you can foresee that these questions will have to be determined; and you further say that the work is radically bad and defective, and ought never to have been permitted, and it ought not to be paid for.

If you have in your possession information which goes to prove that the work is radically defective, or any knowledge that the action of the City in regard to the construction of the work tends to jeopardize the collection of the assessment therefor, I think it becomes your duty to make it known to the proper officers of the City, so that the remedy may be applied—and to that end you should be specific and locate the faulty construction of the work.

When the estimate for the month of August was received the Commission of Engineers, Messrs. Haswell, Worthen, and Bogart, reported to me that the work had been done in accordance with the contract, with the exception of the portion of the parapet wall, constructed in 1878, and the allowance made for excavation outside the limits of the drive. These portions of the work have not, nor will not be paid for, until they are made to conform with the contract, and as I have requested these gentlemen to renew their examination of the work, it will afford you an opportunity to meet with them, and point out in detail the portions of the work which you consider faulty.

You may be assured that I shall not in any instance allow payment to be made for work which has not been done in

every particular in accordance with the contract made with the City.

I hope you will make it convenient to meet Messrs. Haswell, Worthen, and Bogart, and accompany them on their examination of the work.

Respectfully,
(Signed) JOHN KELLY,
Comptroller.

The Hon. JOHN KELLY,
Comptroller :

Sir,—I am in receipt of your letter of the 25th instant in answer to mine of the 24th instant, in which you state to me, that you have requested Messrs. Haswell, Worthen, and Bogart to renew their examination of the Riverside work, and ask me to accompany them.

I do not think it advisable for me to participate in their examination. It is my province, as the head of the Department, to receive the reports of the engineers, examine and pass judgment upon them.

Your appointment of these gentlemen to examine the work discredits the certificate of Mr. McAlpine, the engineer of this Department, over that work. In this I agree with you. Their previous certificate condemned the certificate of Mr. McAlpine then before them, so that virtually his certificates are no longer entitled to any consideration by anybody.

I will not assume in advance that the report which Messrs. Haswell, Worthen, and Bogart may give you will not be entirely thorough and correct, and state all the defects and errors in the present estimates and in the construction of the work. It will be substantially the first certificate on which this De-

ould act with propriety, and if you will supply me
when it is handed to you, I will give it a careful
n, and will call your attention to any point, if there
looked in it.

Chairman Board of Estimate and Apportionment :

Dear Sir,—We respectfully report to your Board that, owing to an oversight in preparing estimates for our Depart-

unexpended balance of appropriation for 1879, to correct the amount for Supply Account by about one thousand dollars. There was, however, sufficient funds for each individual requisition when granted by the Board. There was on hand, January 1, 1880, about one thousand dollars worth of supplies bought in the month of December (as we are always obliged to keep a stock of supplies on hand, and not wait until everything is exhausted before making other purchases). We have but one complaint, which is that the greatly increased cost of supplies in the three last months of the year was such as to run up to the usual monthly amount of requisitions. All supplies purchased in excess, however, was on hand for the next year.

We therefore most respectfully request your Board to make transfers from the unexpended balances of the several accounts in our Department to the credit of the Supply Account for 1879, so that the parties we have purchased from may receive the amounts now due them.

FINANCE DEPARTMENT,
COMPTROLLER'S OFFICE, April 6, 1880. }

of Estimate and Apportionment :

ary 24, 1880, there was referred to the Comptroller adopted by the Commissioners of the Fire Department requesting the transfer of \$1,200 from the unexpended balances of appropriations made to the Fire Department for the year 1878 to the appropriation made to said Department for the year 1879, the said amount being required to defray the expenses of G. Colgate, the owner of a patent on the insulated submarine telegraph cables and wires with gutta-percha license covering the use of the insulators by the Department in the year 1879.

On examination that, on the advice of the Counsel to the Department, the Fire Department, in January last, commenced the claim of Colgate against the said Department for the use of his patent, at the sum of \$1,200 per annum, including the year 1879. The sum of \$1,200 has been paid for the year 1880, and the transfer asked for is necessary to provide for the payment for the license for the year 1880.

It is recommended that the transfer asked for by the Department be made, and a resolution is herewith presented for that purpose.

JOHN KELLY,
Comptroller.

Resolved the following resolution :

That the sum of twelve hundred dollars be, and the same be hereby, transferred from the appropriation made

to the Fire Department for the year 1878, entitled "Fire Department Fund—for Apparatus, Supplies, etc," which is in excess of the amount required for the purposes or objects thereof, to the same title of appropriation made for the year 1879, which is insufficient to enable the payment of the claim of Clinton G. Colgate for the use of his patent on the insulation of submarine telegraph cables and wires with gutta-percha by the said Department during the year 1879.

Which was adopted by the following vote, viz :

Affirmative—The Mayor of the City of New York (Chairman), the Comptroller of the City of New York, the President of the Board of Aldermen, and the President of the Department of Taxes and Assessments—4.

BOARD OF EXCISE, 299 MULBERRY STREET, {
NEW YORK, March 24, 1880. }

HON. EDWARD COOPER, *Mayor and Chairman of Board of Estimate and Apportionment of the City of New York :*

Sir,—The Board of Commissioners of Excise in and for the City of New York respectfully state that, in part owing to having to defray certain legal charges from the appropriation heretofore made for the payment of the current expenses of the Board for 1879–80, and partly to the requirement to employ additional assistance in furthering the system adopted for the reduction of a number of unlicensed dealers, which expenditures were not contemplated when the annual appropriation was made, it has become necessary for this Board to request from the Board of Estimate and Apportionment that a further ap-

of \$7,500 be made, in order to cover the necessary the first day of May, 1880, the same to be paid they received for licenses.

satisfaction to this Board, in presenting this application that as to the efforts made to reduce the unlicensed dealers, while it is not believed that the number of dealers has been increased, the number of licenses issued to this date exceeds by 610 the number for the corresponding period of last year.

Amount of license fees collected during the same time was of about \$28,000, which sum it is estimated will be so as to show \$40,000, as the increase for the year, ending May, 1880.

The statement will be the better appreciated by the fact of the report of the Comptroller, having reference to the communication last made to your Honorable Board, in relation to receipts and expenditures, that the year 1878-9, showed the increase of license fees received over 1877-8 to have been \$184,710. The total receipts of license fees will this year amount to a sum exceeding

LAW DEPARTMENT,
 OFFICE OF THE COUNSEL TO THE CORPORATION, }

, Esq.,

Deputy Clerk of the Police Department :

ave received your communication, bearing date
 1880, enclosing a letter to the Board of Police Com-

missioners from Mr. Charles P. Miller, relative to the payment of the salary of Patrolman John Shea, from March 17, 1875, to March 17, 1877, and stating that the same was referred to me by the Board for my opinion.

From the memorandum enclosed in your letter, showing Shea's record during the time of his connection with the police force, and from the records in this office, the facts in regard to his case appear to be as follows: He was dismissed from the force May 17, 1875, on the ground that he was disqualified to hold position, by reason of his having been convicted of a misdemeanor. In March, 1876, he obtained a writ of *certiorari*, by which he sought to review the action of the Board in his dismissal. The case was submitted to the General Term of the Supreme Court on May 15, 1876, and on February 15, 1877, the opinion of the court was rendered to the effect that the conviction should be reversed and the proceedings remanded. On the 16th of March, 1877, in pursuance of an order of reinstatement granted by the court, Shea resumed his position as patrolman, and was assigned to duty in the Fourteenth Precinct.

The facts above stated appear to render this case similar, in all points, to that of Augustus C. Miller, concerning which I wrote you on January 29, 1879, and that of James Mulrey, concerning which I wrote you July 18, 1879. In those cases I advised you that in my opinion the plaintiffs were entitled to receive their salary for the respective periods which elapsed between the date of their removal and their reinstatement. I see no defense which could be made to an action brought for the recovery of this claim, unless it might be shown that after Shea's removal another man was specifically appointed to fill his place, who drew his salary during the time which he now claims it, or unless there was a disposition manifested on his part to abandon his claim to the position.

of course, that it would be impossible to establish
 of the kind first suggested, and the fact that Shea
 legal proceedings within a reasonable time after
 al would make it impossible to maintain the second.
 I think it would be advisable for your Board to pay
 you have any moneys applicable to the purpose,
 I think it would be proper to apply for a transfer
 nt sum from some unexpended appropriation.

Since this settlement, I have ascertained that Mr. Masterson is entitled to an allowance of 75 days, out of the 117 days charged, on account of delays to which he was subjected in consequence of the death of the surveyor first appointed on the work, and the removal of a house which stood within the lines of the work. The Comptroller presented the following report :

CITY OF NEW YORK—DEPARTMENT OF FINANCE, }
COMPTROLLER'S OFFICE, May 21, 1880. }

To the Board of Estimate and Apportionment :

Gentlemen—The Comptroller, to whom was referred at the last meeting of this Board a communication from the Commissioners of the Department of Charities and Correction, stating that the amount appropriated to said Department for the supply account for 1880 will be exhausted before the end of the year, on account of the increased cost of nearly all articles used by it, and transmitting a statement of articles and comparative prices thereof in the month of January, 1879 and 1880, in order, as desired by said Commissioners, that "such action may be taken to enable this Board to appropriate an additional amount, should it actually become necessary," reports

That, in my judgment, it does not seem probable that it will "become actually necessary" to make such additional appro-

and that it can and should be avoided by the exercise of economy in the administration of the Department of Public Charities and Correction. The law renders it improper for the officers of the City Government, responsible for the expenditures, to keep them strictly within the estimates and appropriations.

A statement of comparative prices of a number of articles for the month of January, of the years 1879 and 1880 is furnished in support of the application of the Commissioners for annual appropriation for the year 1880, but I think that the facts presented by this statement are not sufficient to show the necessity for an additional appropriation to the Department of Public Charities and Correction.

A comparison of prices of articles of supply at the beginning of each year hardly affords a certain criterion of judgment for the whole year. Prices fluctuate materially. While the prices of some leading articles like flour, sugar and staple provisions may have been higher in the early part of the present year, they are more likely to decline than to continue at that level throughout the year 1880. While the statement submitted by the Commissioners of Charities and Correction shows an advance of prices of articles of supply enumerated, there are some others not mentioned which are lower in 1880 than they were in 1879. Comparing a contract made by the Department of Public Charities and Correction, January 29, of the year 1879, with one made February 12, 1880, for the year 1880, for the staple articles of provisions, beef, mutton, the prices are very much less in 1880 than they were in 1879, making a total difference in the contracts of \$40,600 in favor of 1880. This difference of prices in these articles will be a material offset against any increase of cost that may arise in other articles.

The above considerations, which, in my judgment, are suffi-

cient to render it inadvisable for the Board of Estimate and Apportionment to take any action favorable to an additional appropriation to the Department of Public Charities and Correction for the year 1880.

Respectfully,

JOHN KELLY,
Comptroller.

If he had not arrested Shields, as he did, he would

account. And it is a reasonable inference that it was for that reason that the learned justice set aside the verdict of the jury.

It may also be said in addition that as the case now stands, Glass is fully exonerated for any charge of willful or malicious conduct in the matter, or from having been over zealous in the discharge of his duty in the premises.

Glass' application was endorsed by his Captain.

Under the circumstances the Police Commissioners favorably entertained the request, and passed the resolution which is now pending before the Board of Estimate, etc.

In view of all the facts in the case, it is proper for the Board of Police to make this payment for Patrolman Glass. It follows, therefore, that the Board of Estimate and Apportionment should make the necessary transfer.

 ruary 13, 1880, the Mayor, Aldermen, etc., are
 th one-half the expense of the proceeding, namely,
 that as there appears to be no reference made in
 of the Commissioners to the laws under which said
 against the Mayor is laid, you desire to be advised
 provisions of law bonds or stocks can be issued to
 City's proportion of the assessment; also, under

 said opening.

It appears by the maps on file in the Register's Office, and from the statements made at the Park Department, that the Bronx River road referred to in your letter is a new street laid out by the Commissioners of the Department of Parks, pursuant to the provisions of chapter 604 of the Laws of 1874, and chapter 436 of the Laws of 1876. The proceedings to acquire title to the same were taken pursuant to said chapter 604, and the bonds to pay the amount assessed upon the City, and also the other half of the expense of the proceeding, can be issued under section 7 of that act.

LAW DEPARTMENT,
OFFICE OF THE COUNSEL TO THE CORPORATION, }
NEW YORK, April 2, 1880.

Hon. JOHN KELLY, *Comptroller* :

Sir,—Your communication of the 29th ult., requesting information as to what law authorizes Commissioners of Estimate and Assessment to charge the City with one-half of the expense of opening a street of less than a mile in length, has been received.

The right of the Commissioners for opening streets in the Twenty-third and Twenty-fourth Wards, to assess a portion of the expense upon the City, depends upon the length of the street as established by law. If any street, as so established, is more than one mile in length, not more than one-half of the amount awarded for damages and of the expense attending the opening can be assessed upon the property benefited, even though a portion of less than one mile is included in a particular proceeding (section 4, chapter 604, Laws of 1874). In September last I advised the Commissioners for opening the

er road, in reply to a communication from them, to effect, and it was under authority of said section 4, Laws of 1874, that the assessment was laid upon the said opening.

I am, sir, yours respectfully,

OFFICE OF BOARD OF EXCISE—299 MULBERRY STREET, }
NEW YORK, May 24, 1880. }

*To the Board of Estimate and Apportionment
of the City of New York :*

Gentlemen—The Board of Commissioners of Excise present to your Honorable Board their annual estimate of the appropriation required to meet the necessary expenses of the Board of Excise for the year ending April 30, 1881.

The Commissioners of Excise have the satisfaction of an-

at the revenues derived from licenses have been considerably increased. The year just closed showed an forty-four thousand six hundred and ten (\$44,610) the preceding year, being a continued increase as the following statement :

	Number of Licenses.	Amount of Fees Received.
.....	6,246	\$287,258 25
.....	4,970	206,235 00
.....	7,754	390,945 00
.....	8,658	435,555 00

Comparison of these figures shows that the amount paid Chamberlain for license fees by the Board of the year ending April 30, 1880, exceeded the four years above mentioned, as follows :

for 1876-7.....	\$148,296 75
for 1877-8....	229,320 00
for 1878-9.	44,610 00

Number of unlicensed dealers has been considerably reduced by the efforts made by this Board to enforce the requirements of the law.

Number of licensed dealers for the year just expired showed an increase of 904 over the preceding year, although a perceptible increase of the numbers engaged in the business of selling wines, ales and liquors.

It was deemed necessary by the Board of Excise that the sum of \$65,000 shall be appropriated for their expenses during the year as was appropriated for the past year, to wit, \$65,000 dollars. For a detailed estimate of the expenses reference may be had to the communication from the Board of Estimate and Apportionment at our application to your Honorable Board.

The Commissioners are confident that they will be able to still further increase the revenues in consequence of their continued efforts, improved system, and apparent indication of business prosperity.

Yours respectfully,

RICHARD J. MORRISON,	} Commissioners of Excise.

CITY OF NEW YORK—DEPARTMENT OF PUBLIC PARKS, }
36 UNION SQUARE, May 26, 1880. }

Honorable the Board of Estimate and Apportionment :
Meeting of the Board governing the Department of Parks, held on 22d inst., a communication was received

from the Secretary of the Board of Estimate and Apportionment, transmitting a resolution of said Board requesting an explanation of the cause of the deficiency in the appropriation of the Department for 1879, on the accounts

“Maintenance and Government of Parks and
Places—Labor, Maintenance and supplies”.. \$751 63
“Maintenance and Government—Twenty-third
and Twenty-fourth Wards” \$154 48

—and to which accounts this Department has respectfully asked the amounts mentioned to be transferred from unexpended balances on appropriations made for the use of this Department.

The amount asked for on account “Maintenance, etc., Parks and Places,” was found necessary, by the fact that although extra care was taken in the latter part of the year to estimate the amount of labor and materials necessary to maintain and care for the parks, the sum of \$751.63 was absolutely necessary to conduct the Department and protect certain works during winter weather, although the working force was reduced fifty per cent.

The amount asked for on the account “Maintenance of Twenty-third and Twenty-fourth Wards,” was found necessary in consequence of repairs that the Department were compelled to make to two bridges over the Bronx and other streams, and particularly the repairs unexpectedly found necessary late in the year on one of the bridges, the cost of which, it being impossible to estimate in consequence of its decayed condition, and the repairs upon which the Department was compelled to make, or close the bridge entire, and cause travel to be suspended.

LAW DEPARTMENT,
OFFICE OF THE COUNSEL TO THE CORPORATION, }
NEW YORK, June 9, 1880.

N WHEELER, *Secretary of the*

Board of Estimate and Apportionment :

duly received a copy of the following resolution, passed by the Board of Estimate and Apportionment on the 1st of June:

“Resolved, That the matter of the transfer of the powers, duties, etc., of the Department of Buildings to the Fire Department, be referred to the Counsel to the Corporation for his opinion as to the constitutionality of the act (chapter 52 of the Laws of 1880), and as to the power of the Board to make such transfer.”

Even the Court of Appeals will not pass upon the constitutionality of a statute, unless it is necessary to the determination of the appeal (*Frees vs. Ford*, N. Y., 176; *People vs. Board of Supervisors*, 2 Keyes, 291), and as a general rule statutes are not declared unconstitutional except by the courts of last resort, and then only in cases where there is a clear conflict with the Constitution, and in which there is no rational doubt. As was said by an eminent judge in the case of *Macomber vs. The Mayor* (17 Abb. Pr., 35), “No court has a right to declare a legislative act unconstitutional unless it is glaringly so.” In view of the reluctance with which the highest courts decide, or even consider, questions in regard to the constitutionality of statutes, I am of the opinion that the act referred to in the above resolution should be treated by the Board of Estimate and Apportionment as a valid and constitutional law, until and unless it shall be decided otherwise by the courts.

I am also of the opinion that the Board has the power to comply with the request of the Fire Commissioners, and to transfer to their Department the balance of the appropriation heretofore made to the Building Department, over and above such amount as may be necessary to pay all claims heretofore incurred by the latter Department. There is some ground for claiming that the legal effect of the provisions of chapter 52 of the Laws of 1880 is to transfer the balance of this appropriation to the Fire Department, but, as a matter of abundant caution, I think the Board of Estimate and Apportionment should adopt a resolution formally making such transfer. I

ses, transfers under the Act of 1874 can only be the consent of the Department from which the taken. In the present case, of course, no consent on by the former Superintendent of Buildings, as as ceased and determined, and the Department of as been abolished. If such transfer is necessary k the Board of Estimate and Apportionment can ke it upon the request of the Fire Department, y the terms of the statute, vested with all the d duties formerly devolved upon the Building

FINANCE DEPARTMENT—COMPTROLLER'S OFFICE,
July 14, 1880.

To the Board of Estimate and Apportionment :

On the 12th of June last, there was referred to the Comptroller a resolution adopted by the Commissioners of the Department of Public Parks on the 4th of June, 1880, requesting the transfer of \$1,182.21 from certain unexpended balances of appropriations made to said Department of Public Parks to certain appropriations made to the same Department for the years 1877, 1878 and 1879, which are insufficient to enable the Department to pay the statutory allowance of not exceeding \$300 per annum, under chapter 771 of the Laws of 1857, to be paid to Commissioners Conover and Lane during the period of their service as Commissioners of said Department.

The Counsel to the Corporation having given an opinion which is herewith submitted, that the Commissioners of

ent of Public Parks are entitled to the said allowance
 exceeding \$300 per annum, I recommend the adoption of
 accompanying resolution making the transfer as requested.

Respectfully,

JOHN KELLY,

LAW DEPARTMENT.
 OFFICE OF THE COUNSEL TO THE CORPORATION, }
 NEW YORK, March 23, 1880.

KELLY,

Comptroller:

I duly received your letter of the 9th of January last,
 that you are in receipt of three vouchers, transmitted
 Department of Parks, in favor of Samuel Conover, for
 William C. Wetmore, for \$1,097.51, and Smith E.
 \$591.92, respectively.

Vouchers are presented for the purpose of obtaining
 tion for "personal expenses in visiting and superin-
 the Central Park," from the date of their appointment
 Commissioners to January 1, 1880, and these amounts are
 under section 3 of chapter 771 of the Laws of 1857.
 best to be informed whether these are valid claims
 City Treasury.

3 of said chapter 771 of the Laws of 1857, declared that
 persons therein named should be continued and con-
 the first Board of Commissioners of the Central Park.
 provides as follows: "They shall hold office for five
 shall receive no compensation for their services;
 Commissioner shall, nevertheless, be entitled to be reim-
 amount of his personal expenses in visiting and
 ding the said Park, not exceeding the sum of \$300
 "

provision of law apparently remained in full force so

long as the office of Central Park Commissioner was in existence. It did not, however, entitle each Commissioner to receive the sum of \$300 a year, but only to be reimbursed such amounts as should be actually expended by him for personal expenses in visiting and superintending the Park. The subsequent legislation upon the subject is as follows: The powers of the Commissioners of the Central Park were transferred to the Department of Public Parks, created by the Charter of 1870. Section 96 of that charter provides as follows: "All provisions of law which provide for the maintenance and government of the Central Park, or grant powers and devolve duties upon, or award allowance for carriage hire to the Commissioners of the Central Park, or provide salaries for the comptroller of said park, shall apply to the Department of Parks hereby established, the commissioners and comptroller thereof, respectively."

I am not aware that at the time of the passage of the Charter of 1870 there was any law in existence which, in so many words, awarded an allowance for carriage hire to the Commissioners of the Central Park. I presume, however, that the provision in said charter referred to the above-quoted provision of the Act of 1857, providing that each Commissioner should be reimbursed in the amount of his personal expenses for visiting and superintending the park.

Section 15 of chapter 383 of the Laws of 1870, contains among other things, the following provision: "No member of the Board of the Department of Public Parks shall receive any salary or other compensation for his services in any capacity connected with said Department." It has been generally supposed that this provision of said section 15 deprived the Commissioners appointed under the Charter of 1870 of an allowance for carriage hire, and in the several editions which have been published of that charter, it has been stated

s "or award allowance for carriage hire to" were by said section 15.

Charter of 1873 created a Department of Public Parks, section 83 provided that the department so created have all the powers and duties belonging to the department-commissioners of parks, not inconsistent with the terms of this act." Section 116 of said Charter of 1873, as follows :

Commissioners of Parks, other than the president,

above quotations cover all the legislation bearing upon the subject. The provision in the Act of 1857 does not appear to have been specifically repealed; but on the other hand, it is said that the provision creating the Department of Parks in the Charter of 1873, and defining their powers and duties, to be the same as those of the Commissioners of Parks, then existing, did not preserve the provision in the Act of 1857 with regard to the payment of the expenses of the Commissioners. But in general, I suppose every public officer is entitled to be reimbursed such expenses as he incurs in the discharge of his duties. It is customary for the employees of the Department to collect the amounts disbursed by them in the discharge of their legitimate expenses in the discharge of public duty. The Engineers of the Croton Aqueduct Department, in traveling in the discharge of their official duty, are reimbursed their legitimate expenses, and these things are

done, so far as I know, without any specific provision of authorizing it; and it may be fairly questioned whether Commissioners of Parks are not likewise entitled, without provision of law, specially authorizing it, to be repaid the necessary and legitimate expenses while attending to the charge of their official duty. The provisions of law that are to receive nothing for their services do not cover the of their expenses.

In view of all the provisions of law upon the subject I think the Commissioners are entitled to receive their reasonable and proper disbursements for the expense incurred properly discharging their official duty, not exceeding \$ per annum.

solved that the Comptroller three resolutions adopted by the
Police on April 16, 1880, requesting certain transfers
of appropriations. I have caused an examination of the mat-
ters made, and find that the transfers asked for are neces-

the streets of the City in the years 1877, 1878 and

I therefore recommend the adoption of the resolution here-
submitted.

Respectfully,

April —, 1878.....	
January —, 1879.....	

November last, Mr. A. C. Kingsland, son of the former of this City, and our Treasurer, was in Europe, and, by omission, the annual report of the Society was not sent to the office. I was called on, however, last winter (in January, I think) by a gentleman from your office, who reminded me of the omission, and I accordingly had a report sent. In the past winter certain charities have received donations from the Excise Fund, a list of which was published in the City Directory. I called the Mayor's attention to the fact that our Society was overlooked, and I wrote you a note on the subject as to how we also obtained the opinion of the Corporation Counsel that no award could properly be made to the Society, as its expenses come from the City, and as a matter of fact, it has been omitted from the list of Societies receiving aid of the City for something like twenty years. Now what I fear is that our Honorable Board will pass us over for 1880—for our last award was for 1879—and it was apprehension as regards the future which led me to call on you the other day. After I left I thought that you might be under the impression that I was waiting for 1881, whereas I am yet soliciting the donation for 1880, not yet awarded. I regret to trouble you in the matter, but our little Society really depends so much on this sum that it would be a serious loss for us if we were compelled to wait another year.

Yours, very truly,

CHARLES H. MARSHALL

offered the following resolution:

Resolved, That in pursuance of the provisions of chapter 221 of the Acts and Laws of 1875, the Board of Estimate and Apportionment hereby appropriates the sum of six hundred and twenty-four dollars from the Excise Fund to the "Society for the Relief of Destitute Children of Seamen," a char-

itable society in the City of New York, which grat
aids, supports, and assists the poor, and which,
opinion of the Board, seems to be deserving and
as a per capita allowance of six dollars for each of
hundred and fourteen poor and destitute children
ed by said society during the year ending Septem
1879; this appropriation is made with the distinc
sion that no part of the money is to be used or ap
said society as a permanent fund, or for the pur
erecting, renting or furnishing any building, or
payment of the salary of any employee, but the
amount allowed to said society is to be used to “
ously aid, support and assist the poor,” as prov
law.

CHAIRMAN presented the following communication:

DEPARTMENT OF PUBLIC CHARITIES AND CORRECTIONS
COMMISSIONERS' OFFICE, No. 66 THIRD AVENUE

NEW YORK, September 29,

HON. EDWARD COOPER,

Mayor, and Chairman Board of

Estimate and Apportionment :

Sir,—The Commissioners of Public Charities and Corrections respectfully represent that since the establishment of telegraphic communication between the different islands under their control, they have, through the courtesy of the Western Union Telegraph Co. and the Fire Department of the City, been using their cables crossing the East river to Blackwell's, Randall's and Ward's Islands. The frequent interruption of the line running to Blackwell's Island, caused by using condemned wires in the cable to that island, has caused great annoyance, and the liability of the owners of the cables rendered the use of the wires now connected with the line of the Fire Department, which would render telegraphic communication useless, makes it desirable that new cables be laid which shall be the exclusive property of this department.

I quote from section 115, Laws of 1873:

“No patented pavement shall be laid, and no patented cable shall be advertised for, contracted for or purchased under such circumstances that there can be a fair and reasonable opportunity for competition, the conditions of which shall be prescribed by the Board of Estimate and Apportionment.”

All telegraphic cables being “patented articles,” the provision of the charter requires the Board of Estimate and Apportionment to prescribe the conditions under which the same can be contracted for. The Commissioners, the

fully request that your Board adopt the preamble and
on herewith submitted.

Very respectfully,

G. F. BRITTON,
Assistant Secretary.

reas, The Department of Public Charities and Correc-

such circumstances that there can be a fair and reason-
portunity for competition, the conditions to secure
shall be prescribed by the Board of Estimate and Ap-

s applied to the Board of Estimate and Apportionment
cribe the conditions to secure a fair and reasonable op-
ty for competition in bidding for said cables ; there-

ved, That the Board of Estimate and Apportionment
prescribe the following as the conditions under which
ork may be contracted for :

Department of Public Charities and Correction shall
se, in the manner provided by section 91 of the Charter
3, for the supplying and laying telegraphic cables to
ell's, Randall's, and Ward's Islands, and the contract
work covered by the advertisement, if awarded at all,

shall be awarded to the lowest bidder, whose proposal considering the price, quality, and durability of the cables he offers to lay, will, in the opinion of the department, be advantageous to the City.

The department may reject all the bids received in response to any advertisement, if it shall deem it for the interest of the City to do so, and may readvertise until a satisfactory proposal shall be received, but the contract, when awarded, may be awarded to the lowest bidder for the particular kind of work which is adopted.

Honorable Police Board of the City of New York:

emen,—I have the honor to report, on the reference to me by your Honorable Body, of a communication from the "Board of Health," covering a report made by Sanitary Inspector Russel on the condition of the Eleventh Precinct-station-house, located over the Union Market, that the water-closets and other water conveniences necessary for the police force, the prisoners, and lodgers, are all located on the second (2d) floor of the market building, and all waste is discharged through exposed pipes passing down through the building into the cellar, and then out to the street sewers upon the side of the building. The waste from the prison is discharged through a cast-iron pipe, the waste from the lodgers is also through an iron pipe, and both pipes are located on the south side of the building. The waste from the wash sink is through a lead pipe, as also the waste from the men's water-closets, and both pipes are located upon the same side.

The men's water-closet that forms the principal cause of complaint made by Sanitary Inspector Russel. This and the plumbing work of the station-house is to-day in as poor condition as such old work can be expected to be. But it is immediately connected with the men's water-closets, which are very much exposed to the weather, are more liable to freeze and burst in the winter. This occurs every winter, but not, if at all, at any other time. When a burst occurs the water from the pipes is, as a matter of course, dropped into the cellar below, and for the time being, becomes an intolerable nuisance. Such accidents, however, have always been remedied as soon as a plumber could be got there. The market

people are afraid of these accidents, because they are
happen at any moment.

The plumbing of the station-house is very old, and
water-closets, cell-hoppers and waste-pipes have ne
become exceedingly foul, and the vitiated or poisoned
felt most in the station-house itself. The waste-pipes
through the market are not really objectionable, as t
vertical, and all matter passes through them quickly.

The only remedy I know of is to take out all
plumbing and replace it with new, but this would be
sive, and only a temporary make-shift, as the new wor
soon foul up, besides, the waste-pipes would have to be
through the market the same as now.

I was informed that a leak from the lodging-rooms
ceptible at this time, but I was not able to find it. I
leaking, it must be very slight, and must be the only
present.

The communication from the Board of Health is
returned.

Respectfully submitted by your obedient servant

E. S. PAR

DEPARTMENT OF PUBLIC WORKS,

NEW YORK, October 18, 1880.

EDWARD COOPER,

Mayor, and Chairman Board of

Estimate and Apportionment :

—Upon the completion, under chapter 393, Laws of the City of New York, of the bridge across the tracks of the New York & Harlem Railroad Company on Fourth avenue, at One Hundred

and Sixteenth street, it became necessary to grade, adjust and repave One Hundred and Sixteenth street, at each end of the bridge, in order to make convenient approaches to the bridge. This work has been done at an expense of \$600.

An appropriation was made in the estimate for 1879 for the City's share (one-half) of the cost of the bridge, and the unexpended balance of this appropriation is sufficient to pay the expense of adjusting and repaving the approaches. I have the honor to request, therefore, that the sum of six hundred dollars be transferred from the appropriation for "Bridge and Repairs" to the appropriation for "Fourth avenue at One Hundred and Sixteenth street" for 1879, for the purposes of which it is not needed, to the appropriation for "Repairs and Renewals of Pavements" for 1879, in order that the account may be paid.

OFFICE OF THE COUNSEL TO THE CORPORATION, }
NEW YORK, October 30, 1880.

To the Honorable the Board of Apportionment:

Gentlemen—My attention has been called to the estimates of the Law Department, by his Honor the Mayor, in relation to the application thereto of the provisions of section 3 of chapter 521 of the Laws of 1880.

Upon examination of the estimate for salaries of the clerks, assistants and messengers, in that portion of the Department which is under my personal charge, it will be seen that the aggregate sum required is ten per cent. less than the aggregate amount paid for the salaries and compensation of such persons during the year 1880.

The estimates of the Corporation Attorney and Public Administrator, for the expenses of their respective bureaus, were submitted separately, and are subject to the application of the same statutory provision requiring a reduction thereof, to a sum at least ten per centum less than the aggregate amount paid for the salaries and compensation in such bureaus during the present year.

I am also asked to advise as to whether the Attorney for the Collection of Personal Taxes is an officer of the Law Department or of the Finance Department.

Under the law, chapter 334 of the Laws of 1867, the Attorney for the Collection of Arrears of Personal Taxes was made the chief officer of a Bureau in the Finance Department.

Under the present Charter the Counsel to the Corporation is authorized to appoint the attorney (section 36, Charter of

The CHAIRMAN presented the following communication:

DEPARTMENT OF PUBLIC WORKS,
COMMISSIONER'S OFFICE—ROOM 19, CITY HALL, }
NEW YORK, November 6, 1880.

HON. EDWARD COOPER,

Mayor, Chairman Board of

Estimate and Apportionment:

Sir,—After my estimate of the sum required to carry on the work of this Department for the year 1881 was presented to your Board, my attention was called by the officers of the 69th Regiment of the National Guard to the condition of their armory and rooms over the Tompkins Market, and to the necessity for certain repairs and improvements therein. With the Superintendent of Repairs and Supplies I made an examination of the premises, and came to the conclusion that these improvements were necessary for the proper accommodation of the regiment, and for the better protection and maintenance of the building, which is the property of the City. I brought the matter verbally before the Board of Estimate and Apportionment on the day of October, and estimated the cost of the proposed repairs and improvements at \$15,000.

The principal part of this sum, viz., \$9,000, will be expended on the proposed steam-heating apparatus. The rooms are now heated by twenty-two stoves. I think there will be less danger from fire by warming with steam than by the present mode.

The floors of several of the rooms are worn and splintered, and require renewal with best Georgia pine. The original floors were laid with inferior wood. During the fire which occurred in this building a few years since the walls were injured. They should be properly repaired and repainted. The water-closets and plumbing also require certain alterations. The estimate of the whole work is as follows:

Steam-heating apparatus complete, including	
chimney.....	\$9,000 00
Carpenter work.....	4,000 00
Painting.....	2,200 00
	<hr/>
	\$15,200 00
	<hr/>

If steam for heating the building could be supplied by either of the companies recently authorized to lay down pipes in the streets for such purposes, a large saving could be made, but I cannot learn that these companies are making any progress in carrying out the work for which they have received a grant. Could heat be furnished from the street pipes, the above estimate could be reduced to \$9,000.

Respectfully,

ALLAN CAMPBELL,

Commissioner of Public Works.

Which was laid over, and ordered to be printed in the minutes.

The COMPTROLLER offered the following resolution :

Resolved, That the Provisional Estimate made by the Board of Estimate and Apportionment on October 30, 1880, of the amounts required to pay the expenses of conducting the public business in the City and County of New York, in each department and branch thereof, and the Board of Education, for the next ensuing financial year, to wit, for the calendar year eighteen hundred and eighty-one (1881), be submitted to the Board of Aldermen, with the reasons for it in detail, as required by section 112 of chapter 335 of the Laws of 1873.

REASONS FOR THE PROVISIONAL ESTIMATE FOR THE YEAR 1881.

The Provisional Estimate for the calendar year 1881, herewith submitted to the Board of Aldermen of the City of New York, has been adopted and agreed on by the Board of Estimate and Apportionment.

The amounts allowed are such as are prescribed or provided for by law, or such as conform to the Departmental Estimates and to the estimates of necessary expenditures other than those included in Departmental Estimates, except as to the amount of certain items, for which appropriations were asked for, that have been modified or disallowed by the Board of Estimate and Apportionment in making such Provisional Estimate, in the manner and for the reasons stated in detail under the heads of appropriations respectively.

The Common Council.

The sum of \$64,250 is allowed and appropriated to pay the expense of the Common Council for the year 1881, in conformity with the provisions of law.

The amount allowed for the salaries of the President and members of the Board of Aldermen is \$44,000 less than the

amount allowed for the same purpose for the year 1880, in pursuance of chapter 521 of the Laws of 1880. No reduction, however, has been made in the aggregate sum to be paid for salaries and compensation of the Clerk and officers of the Common Council under the provision of said statute requiring that the amount shall be at least ten per centum less than the aggregate amount paid therefor during the present year 1880, for the reason that, in the opinion of the Counsel to the Corporation, the said statute "does not comprehend the Mayor and the Board of Aldermen" as heads of departments, to which the law providing for a reduction of salaries is restricted in its application.

It was stated by the President of the Board of Aldermen that the sum called for in the estimate for salaries of clerks would not be sufficient, and that a reduction had been made therein under the impression that it was required by chapter 521, Laws of 1880. The amount was increased by the Board of Estimates and Apportionment by allowing the sum of \$18,000, instead of \$14,580 asked for in the estimate, for the reason that, in the opinion of the Counsel to the Corporation, the provisions of said statute requiring a reduction of ten per cent. on salaries does not apply to the Common Council.

The opinion of the Counsel to the Corporation on this question, by which the Board of Estimate and Apportionment has been governed in making the Provisional Estimate for the Common Council for the year 1881, and for other purposes and objects, is as follows :

OFFICE OF THE COUNSEL TO THE CORPORATION, {
NEW YORK, September, 23, 1880. }

JAMES E. MORRISON, Esq.,

Secretary to the Mayor :

Sir,—I am in receipt of your letter of the 20th, communicating the request of the Mayor for my opinion as to "whether

section 3 of chapter 521 of the Laws of 1880, which provides for a reduction of salaries, is restricted in its application to heads of departments and the departments under their control, and whether the Mayor is a head of a department, and the Board of Aldermen the head of a department, in view of this law."

In answer, I advise you :

1st. That the provisions of the section cited apply only to the heads of departments, and prescribe their duty in making "the next Departmental Estimate of the amount required for the support of such department during the ensuing fiscal year."

2d. That the Mayor is not the head of any department constituted by the charter.

3d. That the Board of Aldermen is not the head of any department constituted by the charter.

In *Jones vs. The Mayor*, 7 Robertson, 209, the question whether restrictive provisions of the charter relating to departments of the City Government limited the power of the Common Council, was discussed, and the court held that the Common Council was not subject to limitations prescribed by law applicable only to "departments."

I am therefore of the opinion that the statute in question does not comprehend the Mayor and the Board of Aldermen.

I am, sir, yours respectfully,

W. C. WHITNEY,

Counsel to the Corporation.

The Mayoralty.

The sum of \$40,000 is allowed and appropriated for the Mayoralty for the year 1891, being \$2,000 less for the salary of the Mayor than in 1880, under the provision of chapter 521

of the Laws of 1880, fixing the salary at \$10,000, in place of \$12,000, per annum; but no reduction has been made in the aggregate amount of salaries of clerks and subordinates of "The Mayoralty" under the provision of said statute, for the reason that, in the foregoing opinion of the Counsel to the Corporation, it does not apply to the Mayor, as the head of a department, and in accordance with the estimate submitted by the Mayor.

The Finance Department.

The sum of \$240,500 is allowed and appropriated for the Department of Finance for the year 1881, including the salary of the Comptroller of \$10,000 per annum, and the sum of \$30,000 to be paid to the Chamberlain, as provided by law, and deducting \$17,340 from the aggregate amount paid in the year 1880 for salaries and compensation of persons employed in and by the Department, other than the head thereof, and day laborers paid less than \$2 per day; and \$660 less than the amount of salaries paid to temporary clerks employed in the Bureau for the Collection of Taxes, in pursuance of the provision of section 3 of chapter 521, Laws of 1880, and in accordance with the Departmental Estimate submitted by the Comptroller to the Board of Estimate and Apportionment.

State Taxes and Interest and Principal of the City Debt.

The State taxes to be paid as the quota of the City and County of New York, to be raised by tax in 1881, including the salary of the Shore Inspector, fixed, as provided by law, at \$4,270,760; the interest on the City debt payable from taxation in the year 1881, under the statutes authorizing the issue of the bonds and stocks upon which the interest will become due during said year, estimated at \$8,265,965.45; and the sum required to be paid during the year 1881 for the redemption of the principal of the City debt, amounting to \$569,996.75, and

including \$52,395.69 on account of the bonded indebtedness of the towns annexed from the County of Westchester to the City of New York, have been severally allowed and appropriated at the sums mentioned, in conformity with the requirements of law.

Under the provisions of chapter 565, Laws of 1880, the sum of \$75,000 is included for the redemption of fund or stock for the improvement of Morningside Park, not embraced in the Departmental Estimate; also the sum of \$51,000 is included for redemption of revenue bonds under provisions of chapter 556, Laws of 1880, making the total amount \$186,198.52.

Rent of Armories and Drill-rooms, and other Purposes.

The sum of \$61,500 is appropriated for the rent of Armories and Drill-rooms, and the sum of \$48,041.66 for rent of premises for other purposes estimated to be necessary under leases made and to be made, as stated in detail in the Departmental Estimates, and also items for wages of armorers, expenses of the Commissioners of the Sinking Fund, Real Estate expenses, Seventh Regiment New Armory Fund, Trustees of; claims payable under acts of the Legislature, and arrears for advertising, as stated in more full detail in the Departmental Estimate of the Comptroller.

Judgments.

The sum of \$350,000 is appropriated to pay judgments against the Mayor, Aldermen any Commonalty of the City of New York, estimated to be required for that purpose in the year 1881.

The Law Department.

The sum of \$143,728 is appropriated for the Law Department, including salaries of the Bureau of the Corporation Attorney, \$11,178; the Public Administrator, \$7,200, and the

Attorney for the Collection of Arrears of Personal Taxes, \$5,850.

The salary of the Counsel to the Corporation in the year 1881 is reduced from \$15,000 to \$12,000, and ten per centum is deducted from the salaries of assistants, clerks and messengers attached to this department, pursuant to the provisions of chapter 521, Laws of 1880. The Provisional Estimate corresponds with the Departmental Estimate, except as to the items for salaries of clerks and subordinates in the Bureaux of the Corporation Attorney, Public Administrator and the Attorney for the Collection of Arrears of Personal Taxes, which, on the suggestion of the Corporation Counsel, have been fixed at amounts ten per cent. less than those estimated in the Departmental Estimate of the Law Department, in order to make the reduction of salaries required by the statute above referred to.

The Department of Public Works.

The sum of \$2,409,450 is appropriated for all purposes to the Department of Public Works in the year 1881, as required by the various statutes and needs of the public service, according to the Departmental Estimate ; and a reduction of ten per cent. has been made upon the aggregate sum of salaries and compensation of all persons, other than the head of the department and day laborers paid less than \$2.00 per day.

The Department of Public Parks.

The sum of \$919,381.20 is appropriated to the Department of Public Parks, for the maintenance and government of parks and places, including various improvements in the Twenty-third and Twenty-fourth Wards, surveying, monumenting, erecting bridges over the Bronx river, etc., as set forth in the Departmental Estimate. The amount for the

year 1881 is \$350,881.20 more than the total appropriation for 1880.

As provided by chapter 521, Laws of 1880, ten per. centum reduction is made in salaries of all persons other than the heads of the Department and laborers paid less than \$2 per day.

The amounts appropriated are those asked for in the Departmental Estimate, except the item for Police, which was estimated at \$150,000, and for which the sum allowed was \$92,231.20, including \$10,000 for the purchase of uniforms and supplies for Park Police. The amount was arrived at by deducting ten per cent. from the amount allowed for the pay of the Police in 1880, as stated by Commissioner Lane, and adding the amount required for uniforms and supplies.

The Department of Public Charities and Correction.

The sum of \$1,517,416 is allowed and appropriated to the Department of Public Charities and Correction for all purposes in the year 1881, as required under the Departmental Estimate, and a reduction of ten per centum is made on the aggregate sum of salaries of subordinates employed in the Department, as provided by chapter 521, Laws of 1880. The total amount of appropriation is \$69,032.66 more than was appropriated for 1880. The amounts allowed correspond for the several purposes and objects with those in the Departmental Estimate, except that the appropriation for contingent expenses of the Department has been allowed at \$5,000 instead of \$30,000 asked for, the smaller amount being deemed sufficient, and except that certain items of appropriations asked for have been omitted as unnecessary during the year 1881.

The Health Department.

The sum of \$253,363.32 is allowed and appropriated for the expenses of the Health Department in 1881, against \$251,540

in 1880, a reduction of ten per centum on the aggregate sum of salaries of subordinates being made, as provided by chapter 521, Laws of 1880. All the items are in accordance with the Departmental Estimate, except the item for transportation of persons with contagious diseases, for which the sum of \$5,500 was allowed as necessary to provide a proper steamboat and to pay the expenses of transportation.

The Police Department.

The sum of \$4,161,315 is appropriated for all purposes to the Police Department, including \$70,000 for a new steamboat for Harbor Police ; \$700,000 for cleaning streets, and \$100,000 for purchase of steam tugs and scows and additional apparatus and new stock for the Street Cleaning Bureau, the whole amount of appropriations being \$53,575 more than was appropriated for all purposes in 1880. As provided by chapter 521, Laws of 1880, a deduction of ten per centum is made on the salaries of persons employed, other than the head and the uniformed force of the Department, and day laborers paid less than \$2 per day. The items in each case correspond to those asked for in the Departmental Estimate, except that the amount allowed for the payment of captains, sergeants, patrolmen, and doormen are the same as the amounts allowed in the appropriations for the present year, with the addition of \$2,000, allowed for one additional captain, reinstated by order of court, after a successor had been appointed, which amounts were deemed sufficient, and except the amount of \$60,912 asked for in the Departmental Estimate for the payment of the salaries of the clerks, deputies and other employees specified in the estimate, was reduced to \$54,000, in order to make a reduction of ten per cent. of the amount appropriated for the same purposes for the year 1880 ; and except that the item of rents of Police Station-houses was increased \$2,500 to allow

for the payment of rent of the station-house of the Eleventh Precinct; and except that the amount for street cleaning purposes has been modified so as to allow \$100,000 for salaries of inspectors, etc., as specified in the appropriation, instead of \$106,848 as asked for in the Departmental Estimate. The sum of \$600,000 was also allowed for wages of sweepers, etc., as specified in the Provisional Estimate, instead of the sum of \$877,795.50, as asked for in the Departmental Estimate, and the sum of \$100,000 was allowed for the purchase of steam tugs, scows, additional apparatus and new stock, instead of the sum of \$124,500, as asked for in the Departmental Estimate, the sums allowed by the Board of Estimate and Apportionment being, in their opinion, sufficient for those purposes respectively. The amount for Election Expenses was allowed at the amount of \$154,150, being a reduction of \$700 (ten per cent. of the salaries of the Chief and Chief Clerk of the Bureau of Elections) from the Departmental Estimate.

The Fire Department.

The sum of \$1,568,959 is appropriated to the Fire Department for all purposes in the year 1881, including the Bureau for the Inspection of Buildings, and also special appropriations for three new engine houses, two new houses for Hook and Ladder Companies, amounting to \$75,000, and \$26,250 for seven fourth-class fire engines, and also \$60,000 for one floating engine, asked for in the Departmental Estimate. The amount appropriated is \$260,899 more than the total appropriation for 1880.

A deduction of ten per centum has been made on salaries of subordinates and persons other than the heads of the Department and the uniformed force, and day laborers paid less than \$2 per day, as provided by chapter 521, Laws of 1880. The

amounts allowed for each item are the same as those asked for in the Departmental Estimate.

The Department of Taxes and Assessment.

The sum of \$102,100 is appropriated for 1881, against \$107,800 appropriated for 1880, and including \$17,400 to the Board of Assessors, appointed by the Commissioners of Taxes.

A reduction of ten per centum is made upon the salaries of the clerks and employees of the Department of Taxes and Assessments, as provided by chapter 521, Laws of 1880. The Board of Assessors being an independent Board to which the statute requiring a reduction of ten per centum on the salaries of persons employed in Departments does not apply, the salaries of the Assessors and their clerks were fixed at the same amount as for the year 1880.

Except as to the salaries of the Assessors and their clerks, each item in the Provisional Estimate corresponds with the amounts asked for in the Departmental Estimate.

The Board of Education.

The sum of \$3,620,095 is appropriated to the Board of Education, against \$3,500,000 in 1880, including \$100,000 for Corporate Schools, under special acts of the Legislature.

As provided by chapter 521, Laws of 1880, ten per centum is deducted from the salaries and compensation of janitors, clerks and persons employed by the Board of Education, except teachers, exempt under said statute. The amounts allowed in the Provisional Estimate are the amounts asked for by the Board of Education.

The College of the City of New York.

The sum of \$140,000 is appropriated to pay the salaries of officers and professors, supplies and other expense of the

College in 1881, as provided by law, the same amount appropriated for 1880.

Advertising, Printing, etc.

The sum of \$152,200 is appropriated for these purposes in 1881, including the expenses of publishing the *City Record* and the salaries of the Supervisor and his subordinates, no reduction being made for salaries, as the office of the Supervisor does not belong to a department; and the amounts allowed in the Provisional Estimate are the amounts estimated as required by the Supervisor of the *City Record*.

Miscellaneous Purposes.

The amount allowed for Coroners—Salaries and Expenses, is \$46,000, being \$2,500 less than the amount asked for by the Board of Coroners, a reduction being made in their estimate of \$2,500 in the item for *post-mortem* examinations.

The Sheriff's estimate for sheriff's fees was \$50,000, and for Support of Prisoners in the County Jail, \$17,500. In the Provisional Estimate, \$40,000 have been allowed for sheriff's fees, and \$15,000 for the support of prisoners, which amounts are the same as were appropriated for 1880, and are deemed sufficient for these purposes.

The appropriation of \$10,000 for Commissioners of Accounts was allowed as necessary to pay the salaries of the Commissioners and the clerks required.

The appropriation for Jurors' fees; Incumbrances in Harbor, Removal of; Board of Estimate and Apportionment, Expenses of; and the Salary of the Physician of the County Jail, are fixed at the amounts required for those purposes respectively, in the opinion of the Board of Estimate and Apportionment.

The Judiciary.

The sum of \$1,205,125 is appropriated to pay the salaries of judges, clerks, officers and attendants of the courts, including the Police and District Civil Courts, the offices of the County Clerk, the Surrogate, the District Attorney, and the Commissioner of Jurors. Chapter 521, Laws of 1880, provides for reductions in the salaries of persons elected or appointed after the passage of the act, and as no persons under these heads have been since elected or appointed, no changes have been made in their salaries for 1881.

The amounts allowed were arrived at by taking the estimates submitted from the various courts and offices comprised under this head, except as to the following items: The amount of \$67,600 was allowed for salaries of the District Attorney's office, being the amount allowed for 1880, instead of the sum of \$74,300 asked for; the sum of \$4,000 for contingencies of the District Attorney's office, being the amount allowed for 1880, was allowed instead of the sum of \$12,500 asked for; the sum of \$6,600 asked for by the Board of Police Justices for Court Attendants was not allowed; the items in the Estimates of the Civil Justices and the Marine Court for supplies were not allowed, as necessary supplies are furnished out of other appropriations.

The Supreme Court appropriation differs from the amounts asked for in that \$3,000 is added for compensation of judges from other districts, sitting in New York, and the sum of \$2,500 is deducted from the salaries of clerks, etc., the amount appropriated being the same as for 1880.

Asylums, Reformatories and Charitable Institutions.

The sum of \$1,026,018.32 is appropriated as the estimated amount required for the support and maintenance of inmates of charitable institutions in the State and City of New York in

November 9, 1880.]

the year 1881, payable from taxation as per capita allowances and specific sums to be paid under provisions of law. This amount is \$29,276.91 more than was appropriated for the same purposes in 1880. The increase is caused in part by acts of the last Legislature, chapters 597, 598, providing for appropriations to the Five Points House of Industry and The Association for Befriending Children and Young Girls, respectively.

A printed statement of the Departmental and other estimates herein referred to, is herewith transmitted, and constitutes in part the statement of the reasons in detail for the Provisional Estimate which the Board of Estimate and Apportionment is required to transmit with such estimate to the Board of Aldermen

CITY OF NEW YORK—DEPARTMENT OF PUBLIC PARKS,

 November 9, 1880. }

To the Board of Estimate and Apportionment :

The *City Record* report on the 4th of November instant, of the proceedings of your meeting of 30th October, 1880, includes a telegram from Commissioner Conover, and his mis-statements ought to be corrected.

The estimates from this Department, \$919,381.20, as stated in the *City Record*, were adopted by this Department on motion of Commissioner Conover, and ordered to be transmitted to your Board, at a meeting of this Department on October 6, 1880.

When they were submitted to you, the question was then raised whether they complied with section 3, chapter 521, of Laws of 1880, and at your suggestion certain explanations were made on the face of the estimate to show that the ten per centum reduction on all salaries, etc., had been considered, but the amounts of the estimate in aggregate and in detail were not changed.

These statements were added to the estimate and exhibited to Commissioner Conover before they were sent to you. His telegram to you was, therefore, sent under a very strange misapprehension of facts.

Respectfully,

SMITH E. LANE,

Commissioner D. P. P.

And moved that it be printed in the minutes.

Which was agreed to.

The COMPTROLLER offered the following resolution :

Resolved, That the Comptroller be and he is hereby authorized to issue, from time to time as may be required, and at

such rates of interest, not exceeding five per cent. per annum, and for such period, conformable to law, as he may determine, "Assessment Bonds of the Corporation of the City of New York" to the amount of fifty thousand dollars, as authorized by chapter 397, Laws of 1852, and chapter 580, Laws of 1872.

Which was adopted by the following vote :

Affirmative—The Mayor of the City of New York (Chairman), the Comptroller of the City of New York, the President of the Board of Aldermen, and the President of the Department of Taxes and Assessments—4.

The COMPTROLLER presented the following report :

FINANCE DEPARTMENT,
COMPTROLLER'S OFFICE, November 16, 1880. }

To the Board of Estimate and Apportionment :

At the meeting of the Board on the 29th of October, there was referred to the Comptroller a communication from the Department of Public Works, dated October 18, 1880, requesting the transfer of \$600 from the unexpended balance of the appropriation made to the Department for the year 1879, entitled "Bridge across Fourth Avenue, at One Hundred and Sixteenth street," to the appropriation made for the year 1880 for "Repairs and Renewal of Pavements," to meet the expense of grading, adjusting and repaving One Hundred and Sixteenth street, at each end of the bridge across the tracks of the New York & Harlem Railroad Company, on Fourth avenue, in order to make convenient approaches to the same.

I recommend that the transfer be made, and present herewith a resolution for that purpose.

Respectfully,

JOHN KELLY,

Comptroller.

And offered the following resolution :

Resolved, That the sum of six hundred dollars be, and the same is hereby transferred from the appropriation made to the Department of Public Works for the year 1879, entitled "Bridge across Fourth avenue, at One Hundred and Sixteenth street," which is in excess of the amount required for the purposes or objects thereof, to the appropriation made to the same Department for the year 1880, entitled "Repairs and Renewal of Pavements," which is insufficient.

Which was adopted by the following vote :

Affirmative—*The Mayor of the City of New York (Chairman), the Comptroller of the City of New York, the President of the Board of Aldermen, and the President of the Department of Taxes and Assessments—4.*

The CHAIRMAN presented the following communication :

NEW YORK, November 18, 1880.

To the Honorable the Board of Estimate and Apportionment :

Gentlemen,—The undersigned property-owners and taxpayers would respectfully present to you and urge upon you the necessity of a new and improved pavement in Fifth avenue, from Washington square to the Central Park.

This avenue is the central and leading longitudinal thoroughfare of the City. Private enterprise and expenditure have been employed without stint, to give it the character and reputation of being one of the finest streets in the world, and the taxable value of the property fronting upon it exceeds the property value on any other street of the same extent in the City. It is the principal approach to the Central Park and the suburban drives from the present centre of the City, and

is used as such by people from every part of the City below the Park.

All these facts and circumstances combine to demand for this avenue special and different treatment from ordinary streets—not in the interest of any particular locality or class, but as a matter in which the whole City and population are interested; and this fact has been recognized by the State authorities, in the enactment of laws prohibiting the construction of railroads through it. Yet, in the matter of pavement, the City has treated this avenue the same as any ordinary street of merely local use or importance. It is paved with an inferior stone-block pavement, which is rough, noisy, uncleanly, harsh and inappropriate for all kinds of travel, and incapable of being rendered suitable by patching or repairing. Several ineffectual attempts have been made to obtain the authority and means to secure for it a proper pavement. From various causes, travel upon this avenue has greatly increased within the past few years.

We respectfully submit, that a new pavement for this avenue, which shall combine, as much as possible, smoothness, noiselessness, cleanliness, safety and durability, has become an urgent public necessity, which concerns the whole City, and in which every citizen should take pride and interest.

We therefore earnestly request, that your Board will make an appropriation for the ensuing year, to provide for such pavement, at least in part.

To the Board of Estimate and Apportionment :

As provided by chapter 556 of the Laws of 1880, I have inquired into the facts and circumstances under which the contract for paving Madison avenue, from Forty-second to Eighty-sixth streets, was made and entered into by the City, and being satisfied that the said contract comes within the provisions of the said act, I have ascertained, and am of the opinion, that the work under the said contract was delayed by

the acts of the City, its officers and agents ; that the continuance of such period of delay was from the 28th day of August, 1870, to December 6, 1870 ; and that the date upon which the said contract would have been completed but for the delay caused, for which the contractor was not responsible, was August 28, 1870 ; and that the amount of the difference for interest charged on advances made by the City on said contract, between the time of said advances and the date of the completion of the work and the time of said advances to the date of confirmation of the assessment therefor, together with interest thereon from that date, November 22, 1871, to December 4, 1880, has been ascertained to be the sum of twenty-six thousand five hundred and eighty dollars and thirteen cents (\$26,580.13), which amount is due the contractor under the provisions of said act.

THE PRESIDENT OF THE BOARD OF ALDERMEN presented the following communications :

NEW YORK, November 30, 1880.

To the Honorable the Board of Estimate and Apportionment :

Gentlemen,—In 1877 the undersigned began his labors upon the revision of the ordinances, which continued without inter-

ruption until the submission of the same to the Board of Aldermen, on the 5th day of October, 1880.

On or about the first day of February, 1879, the Committee on Law of the Common Council employed the undersigned as an expert, to examine and unite, if possible, the two codifications of the ordinances, which had been submitted by the respective Commissioners, and produce from them one symmetrical and harmonious code.

Your petitioner was engaged upon such work between four and five months, night as well as day, and completed the united revision to the entire satisfaction of the said Committee, and was accepted by it.

It was agreed between the said Committee and petitioner, that the petitioner should accept such compensation for his services as the City might think proper to give him.

The Chairman of the Finance Committee of the Common Council instructs me that the proper method of obtaining such compensation is to apply to your Honorable Board, and your petitioner, therefore, respectfully asks your Honorable Board to award him the sum of fifteen hundred dollars (\$1,500), as suggested by the Committee on Law of the Common Council, for the aforesaid services.

I herewith beg leave to submit a copy of the letter of the Committee on Law respecting the foregoing subject, the original being in the possession of the Finance Committee of the Common Council.

I am, your obedient servant,

EDWIN E. VAN AUKEN.

NEW YORK, November 30, 1880.

To the Honorable the Board of Estimate and Apportionment:

Gentlemen,—The undersigned was Chairman of the Standing Committee on Law of the Common Council for the year 1879.

Early in that year two revisions of the ordinances of the Corporation of the City of New York, one by each of the Commissioners appointed for the purpose of making such revision, were referred to them.

Such Committee were further instructed by the Common Council of that year to bring about an agreement between the Commissioners, if possible, as to the revision of the ordinances.

The said Committee found that hopeless; but that the City should not be deprived of any revision, the said Committee called to their assistance and employed Mr. Edwin E. Van Auken, as an expert, to unite and consolidate the two revisions into one harmonious code. Mr. Van Auken completed such work to the entire satisfaction of said Committee in about four months, and the work was accepted by said Committee.

The said Committee employed Mr. Van Auken upon the understanding that he should accept such compensation as the City might think proper to give him.

Mr. Van Auken, we may say, not only while thus in the employment of said Committee, but also, since 1877, has labored with the greatest diligence, conscientiousness and ability, in conjunction with the Commissioners, to give this Corporation a coherent, symmetrical and accurate codification of the ordinances of the City, and to no one will this Corporation be more indebted for such work than to him.

The Law Committee of 1879, therefore, respectfully and earnestly ask, as a matter of justice, that your Honorable Board award Mr. Van Auken such a sum as may seem just

and proper ; and the said Committee, knowing the amount and nature of the work performed, beg leave to suggest that he be allowed the sum of fifteen hundred dollars (\$1,500) as a fair compensation for his labors.

Very respectfully yours,

J. GRAHAM HYATT,
Chairman.

NEW YORK, August 1880.

To the Honorable the Common Council of the City of New York :

Gentlemen,—The undersigned constituted the Standing Committee on Law of your Honorable Body for the year 1879. Early in that year two revisions of the ordinances of the Corporation of the City of New York, one by each of the Commissioners appointed for the purpose of making such revision, were referred to them.

Such Committee were further instructed by the Common Council of that year to bring about an agreement between the Commissioners, if possible, as to the revision of the ordinances.

The said Committee found that hopeless ; but that the City should not be deprived of any revision, the said Committee called to their assistance and employed Mr. Edwin E. Van Auken, as an expert, to unite and consolidate the two revisions into one harmonious code.

Mr. Van Auken completed such work to the entire satisfaction of said Committee in about four months, and the work was accepted by said Committee.

The said Committee employed Mr. Van Auken upon the understanding that he should accept such compensation as your Honorable Body might be pleased to award him.

Mr. Van Auken, we may say, not only while in the employment of said Committee, but also since 1877, has labored with the greatest diligence, conscientiousness and ability, in conjunction with the Commissioners, to give your Honorable Body and the Corporation of this City a coherent, symmetrical, and accurate codification of the ordinances of the City, and to no one will this Corporation be more indebted for such work than to him.

The Law Committee of 1879 therefore respectfully and earnestly ask, as a matter of justice, that your Honorable Body vote Mr. Van Auken such a sum as may seem just and proper; and the said Committee, knowing the amount and nature of the work performed, beg leave to suggest that he be allowed the sum of fifteen hundred dollars (\$1,500) as a fair compensation for his labors.

Very respectfully yours,

J. GRAHAM HYATT,
Chairman Committee on Law, 1879.

The original of the above letter is in the possession of the Finance Committee of the Common Council.

Which was referred to the Comptroller.

1879, entitled "Fund for Payment of Board of Police for the services of thirty patrolmen," etc., to an appropriation for the year 1880, to be entitled "Fund for the Support of the Night Medical Service," which amount is required under the provisions of chapter 583, Laws of 1880.

COMMISSIONERS' OFFICE, No. 66 THIRD AVENUE, }
NEW YORK, February 2, 1880.

Hon. EDWARD COOPER,

Chairman, Board of

Estimate and Apportionment :

Dear Sir,—We respectfully report to your Board that, owing to an oversight in preparing estimates for our Department as to unexpended balance of appropriation for 1879, we have overrun the amount for Supply Account by about twenty thousand dollars. There was, however, sufficient funds unexpended for each individual requisition when granted by the Board. There was on hand, January 1, 1880, about twenty-six thousand dollars' worth of supplies bought in the month of December (as we are always obliged to keep a stock of supplies on hand, and not wait until everything is exhausted before making other purchases). We have but one excuse to offer, which is, that the greatly increased cost of supplies for the three last months of the year was such as to run far beyond the usual monthly amount of requisitions. All that has been purchased in excess, however, was on hand for January use.

We therefore most respectfully request your Board to make the enclosed transfers from the unexpended balances of the various accounts in our Department to the credit of the Sup-

ply Account for 1879, so that the parties we have purchased from may receive the amounts now due them.

We remain, very respectfully,

TOWNSEND COX,
THOMAS S. BRENNAN, } *Commissioners.*

DEPARTMENT OF PUBLIC WORKS,
COMMISSIONER'S OFFICE, ROOM 19, CITY HALL, }
NEW YORK, December 23, 1880.

Hon. EDWARD COOPER,

Mayor, and Chairman Board of

Estimate and Apportionment :

Sir,—At the time when the department estimate of the Department of Public Works for 1881 was prepared and submitted to your Board, proceedings were pending in the Supreme Court to determine the question whether the Fulton Market building, which had been condemned as unsafe, should be taken down or repaired. The court having recently decided and ordered that the building should be repaired, I respectfully submit an estimate of the amount required to repair and reconstruct it in such manner as to render it entirely and permanently safe, as required by the order of the court; to have as little interference as possible with the market business during the progress of the work, and to provide the most suitable and convenient accommodations for such business on the completion of the work.

The present market is in two distinct portions—the old market proper, two stories high, facing on Fulton, Front and Beekman streets—and the inner and more recent portion, on a different level, facing on South street. The older portion is in much more need of repair than the latter.

It is proposed to rebuild the walls of the older portion in sections, the standholders to be removed in turns to a temporary shed to be erected in Burling slip; the floor to be on a level with the present floor of the inner portion; the building to be one story high, except on the corners and in the centre of the part facing on Front street, where a second story is to be added for offices, closets, and wash-rooms; the walls to be of such design as to afford complete light and ventilation, and of sufficient strength to carry upper stories, if desired to be added in the future, or an iron and glass roof over the centre portion; the roof to be of such construction as to insure a more equable temperature than at present; the present roof over the central part, which was recently repaired, to be retained; a suitable drain to be laid under the floor in place of the present surface drainage; an iron shed on brackets to be built around the market over the sidewalks in place of the present sheds; the exterior to be without unnecessary ornamentation, but of a dignified and attractive design; the whole improvement to be of a permanent character, and to include necessary repairs to the inner market. This plan abolishes the cellar shops on Fulton, Front and Beekman streets. The expense is estimated at \$100,000.

I therefore respectfully ask that this amount be included in the Final Estimate for 1881, and set apart for this purpose for the use of this department. I transmit herewith a plan of the improvement, and will be glad to furnish further details in reference thereto, if desired.

Very respectfully,

HUBERT O. THOMPSON,
Commissioner of Public Works.

CITY OF NEW YORK,
FINANCE DEPARTMENT—COMPTROLLER'S OFFICE, }
DECEMBER 24, 1880. }

To the Board of Estimate and Apportionment :

At a meeting of the Board on the 23d inst. there was referred to the Comptroller a communication from the Counsel

to the Corporation of December 21, 1880, requesting the transfer of \$3,200 from the appropriation for "Salaries of Assistants, Clerks and Messengers, Office of the Counsel to the Corporation," for 1880, which is in excess of the amount required for the purposes and objects thereof, to the appropriation for "Contingencies—Office of the Counsel to the Corporation," 1880, which is insufficient.

I recommend that the transfer be made as requested, and herewith present a resolution for that purpose.

Respectfully,

ALLAN CAMPBELL,

Comptroller.

And offered the following resolution :

Resolved, That the sum of three thousand two hundred dollars be, and the same is hereby transferred from the appropriation made to the Law Department for the year 1880, entitled, "Salaries—Law Department (Salaries of Assistants, Clerks and Messengers, Office of Counsel to the Corporation)," which is in excess of the amount required for the purposes and objects thereof, to the appropriation made to the same Department for the year 1880, entitled, "Contingencies—Law Department," which is insufficient.

The COMPTROLLER presented the following communication :

MAYOR'S OFFICE,
NEW YORK, December 24, 1880. }

To the Board of Estimate and Apportionment :

At the time of the appointment of Inspectors of Elections in 1879, when the mandamus proceedings were pending before Justice Westbrook, I consulted with Mr. Nelson J. Waterbury with reference to my rights and duties as a Police Commissioner in relation to the appointments. Acting in my behalf, Mr. Waterbury obtained a modification of Justice Westbrook's order, and afterward, as I am advised, assisted materially in the preparation of the return to the writ.

Yours respectfully,

JAS. E. MORRISON.

Which was referred to the Comptroller.

Messrs. Townsend Cox, Thomas S. Brennan, and Jacob Hess, Commissioners of the Department of Public Charities and Correction, appeared before the Board and made statements relating to the said Department, and presented the following detailed estimate of expenses :

Estimate of Expenses of the Department of Public Charities and Correction for the year commencing January 1, 1881.

DEPARTMENT OF PUBLIC CHARITIES AND CORRECTION, }
COMMISSIONERS' OFFICE,
NEW YORK, September 30, 1880. }

To the Board of Estimate and Apportionment :

Gentlemen,—As required by section 112 of chapter 335 of the Laws of 1873, amended by section 20, chapter 757, Laws of said year, the Commissioners of Public Charities and Cor-

rection herewith submit the estimate of expenses of the Department for the year commencing January 1, 1881 :

Supplies.

The estimate for supplies is an increase of \$90,816.66 over that appropriated for 1880. It is based upon the expenses of the year 1880. The increased cost of supplies is evident to every one. The item of coal will probably cost \$30,000 more than in 1880, and if meats should advance one cent per pound it will cost about \$25,000 more. It would be unsafe for the Department to have less than the amount asked for.

Salaries.

The amount asked for salaries is in accordance with the law that requires the reduction from the amount appropriated for 1880.

Additions, Alterations, and Repairs to Buildings and Apparatus.

This amount (\$35,000) is necessary for the working of the Department.

Out-door Poor.

We ask for \$5,000 more than for 1880, as coal is very much higher.

Poor Adult Blind.

This amount of \$20,000 is mandatory by statute.

Contingencies.

We ask for \$30,000 for contingencies. It is important that an amount should be granted that could be used in cases of emergency under the supervision of the Board of Estimate and Apportionment.

Improvements.

An additional amount is asked for the following improvements, viz.:

Additions and extra story to engine house, kitchen and laundry at lunatic asylum, B. I.	\$5,000 00
Quarantine pavilion on Randall's Island.	14,000 00
Alteration and addition to Retreat, B. I.	30,000 00
Two hospital pavilions at almshouse.	18,000 00
One pavilion on Hart's Island.	8,000 00

The amounts appropriated for 1880 being insufficient, the additional amount is asked for, based upon the estimates of the architect.

We ask for appropriations for the following necessary improvements, viz.:

East wing to insane asylum, W. I.	\$100,000 00
New morgue at Bellevue Hospital.	25,000 00
Fire engine house at Blackwell's Island.	15,000 00
Laundry building on Hart's Island.	15,000 00
Boiler for laundry at Charity Hospital.	3,000 00
Two boilers and steam-fitting at Penitentiary.	30,000 00
Two boilers and steam-fitting at Tombs.	30,000 00

We also ask for \$15,000 for a machine for making ice.

We place these estimates before your Board, and most respectfully request that the amounts asked for be granted.

Very respectfully,

TOWNSEND COX, THOMAS S. BRENNAN, JACOB HESS,	} <i>Commissioners.</i>

The detailed salaries, being those paid for the year 1880, and the amount asked for 1881, being the estimated amount made up with the reduction of ten per cent.

The Board met in pursuance of an adjournment.

Present—All the members, viz. :

EDWARD COOPER, *the Mayor of the City of New York.*

ALLAN CAMPBELL, *the Comptroller of the City of New York.*

The CHAIRMAN offered the following resolution :

Resolved, That the Counsel to the Corporation be requested to inform this Board whether the specific appropriations for the Police Department under the general heading "Police Fund," are transferable from one specific purpose therein mentioned to another by the Police Board without the action of this Board ; and the Board of Police having appointed two captains (including one captain restored by action of the courts) in excess of the number for which the appropriations for 1880 was made, whether this Board is compelled to make an appropriation for 1881 sufficient to cover the additional expenditure thus incurred.

Which was agreed to.

The CHAIRMAN presented the following communications :

DEPARTMENT OF PUBLIC WORKS,
COMMISSIONER'S OFFICE, ROOM 19, CITY HALL, }
NEW YORK, December 27, 1880.

HON. EDWARD COOPER,

Mayor, and Chairman of the Board of

Estimate and Apportionment:

Sir,—By chapter 521, Laws of 1880, section 2, the salary of

the Commissioner of Public Works thereafter to be appointed was established at the rate of \$8,000 per annum. At the date of the Departmental Estimate for this Department, a new appointment for Commissioner of Public Works had not been made, and the estimate for "Salaries—Department of Public Works," for 1881, contained provision for a salary of \$10,000 for the Commissioner. I therefore desire to amend the Departmental Estimate for that appropriation by reducing it from the sum of \$83,800 to the sum of \$31,800.

Very respectfully,

HUBERT O. THOMPSON,

Commissioner of Public Works.

DEPARTMENT OF PUBLIC WORKS,
COMMISSIONER'S OFFICE, ROOM 19, CITY HALL, }
NEW YORK, December 27, 1880.

Hon. EDWARD COOPER,

Mayor, and Chairman Board of

Estimate and Apportionment:

Sir,—The Departmental Estimate for "Lamps and Gas," for 1881, was based on the prices paid for lighting public lamps for the year ending April 30, 1881, and the prices paid for gas for public buildings for the year 1880.

Since the estimate was made, proposals have been received from the several gas-light companies for furnishing gas for the public buildings for the year 1881, and in accordance with the provisions of the Charter the lowest bids were accepted, and contracts made thereon. Under these contracts the cost of lighting the public buildings and offices will be \$5,000 more than the amount allowed in the Departmental Estimate.

I am also informed that the several gas-light companies appeared before your Board and stated that on the expiration

of the present contracts, for lighting the public lamps they would be compelled to increase their prices, as follows :

The New York, Manhattan, New York Mutual, and Metropolitan Gas-light Companies, from \$15 per lamp, paid for the year ending April 30, 1881, to \$18 per lamp.

The Harlem Gas-light Company, from \$17 per lamp, paid for the year ending April 30, 1881, to \$20 per lamp.

The Northern Gas-light Company, from \$35 per lamp, paid for the year 1880, to \$37.58.

As the contract with the Northern Gas-light Company expires on the 31st inst., a contract at the above rate (\$37.58 per annum), has been made by the Gas Commission with this company for the four months ending April 30, 1881.

Under these circumstances, the cost of lighting the public lamps of the City for 1881 will be \$45,453 more than the amount allowed in the Departmental Estimate.

I therefore respectfully ask to amend the Departmental Estimate for "Lamps and Gas" by increasing it from \$500,400 to \$550,853 (including \$5,400 for salaries payable from the same), and request that the latter amount be set apart in the Final Estimate for 1881.

Very respectfully,

HUBERT O. THOMPSON,

Commissioner of Public Works.

DEPARTMENT OF PUBLIC WORKS,
COMMISSIONER'S OFFICE, ROOM 19, CITY HALL, }
NEW YORK, December 27, 1880.

Hon. EDWARD COOPER,

Mayor, and Chairman Board of

Estimate and Apportionment:

Sir,—When the Departmental Estimate for this Department was made up, it was considered that an expenditure of \$1,500

would be sufficient for the necessary repairs and alterations to prepare the rooms in the City Hall, lately occupied by this Department, for the use of the Marine Court. Upon re-examination of the subject since the rooms are vacated, it is found that the expense will be about \$5,000, requiring a corresponding increase in the estimate for the appropriation for "Public Buildings, Construction and Repairs." It is thought, however, that with strict economy, and confining the repairs and alterations to the immediate necessities, an increase of \$3,000 will be sufficient.

The Departmental Estimate for that appropriation also includes an allowance of \$18,000 for the necessary work, alterations and fittings to prepare the upper part of the Essex Market building for an armory for the Fifth Regiment of the National Guard. Inasmuch as this is a special item of expenditure, not in the nature of general repairs and maintenance of public buildings, I would recommend that the above amount be set apart as a special appropriation for this purpose.

I therefore respectfully request that in the Final Estimate for 1881 the sum of \$49,000 be set apart for "Public Buildings, Construction and Repairs" (including \$1,900 for salaries payable from the same), and the sum of \$18,000 for "Fifth Regiment Armory, Essex Market."

Very respectfully,

HUBERT O. THOMPSON,

Commissioner of Public Works.

Which were referred to the Comptroller and ordered to be printed in the minutes.

(Chapter 411, Laws 1876.)	

To the Board of Estimate and Apportionment :

The undersigned, property-owners and residents of the Twenty-third and Twenty-fourth Wards, respectfully support the appropriations for the year 1881 asked for by the Department of Public Parks on the following grounds :

First—The appropriations in previous years, owing to the economy enforced upon the City, has been insufficient to keep the roads and bridges in good order, and they now need thorough examination and repair.

Second—The area of the Twenty-third and Twenty-fourth Wards is only 258 acres less than the area of Manhattan Island. Excluding the parks in Manhattan Island, the two

Wards are 693 acres larger. The Department has, therefore, charge of streets and avenues, etc., in a district larger than the whole area under the jurisdiction of the Department of Public Works.

Third—There are in these Wards 180 miles of streets, avenues and roads in actual use, and demanding attention and care. Besides the general care of these streets, avenues and roads, it is important that Broadway, from Kingsbridge to the Yonkers line, should be put in good repair. It is a principal thoroughfare of easy grade, and is in constant use by teams and travelers.

One iron and stone bridge has been built over the Bronx river, and has given great satisfaction.

The other six bridges are dilapidated and dangerous, and need to be rebuilt of iron and stone, and the cost of rebuilding this City's half of these six bridges should be appropriated.

The surveys and monumenting is of great importance. This is a necessary preliminary to the occupation of these Wards with population, and should be completed as speedily as possible, for the tendency of population to settle in these Wards if the streets and avenues are made ready is very decided.

They therefore respectfully petition the Board for an appropriation of the full amount asked by the Department of Public Parks.

This work performed almost entirely by contract, therefore no salaries.

*Statement of the Reasons for the Several Appropriations asked for.
Maintenance and Government of Parks and Places.*

Salaries—To pay entirely the salaries of the President, Clerks, Engineers, Architects, and all employees of the Department, excepting Mechanics, Gardeners, Laborers and their Foremen, employed in the work of maintaining the Parks and Places; also excepting the Topographical Engineer and his Assistants in charge of surveying, mounting, &c., Twenty-third and Twenty-fourth Wards, and also excepting the Superintendent and Engineer in charge of Public Places, Roads, Avenues and Bridges, Twenty-third and Twenty-fourth Wards (sections 83

and 112, chapter 335, Laws of 1873, and the reduction of 10 per cent., as provided for by Chapter 521, Laws of 1880):

President.....	\$6,500 00
Clerks, &c.....	25,650 00
	<hr/>
	\$32,150 00

The details are given in the preceding statement.

These salaries in the last five years amount to about one-third they stood at in 1875, which is a greater reduction than in any other City Department, and it would be detrimental to efficient service to reduce the Appropriation for Salaries any lower.

Police—Salaries of Captain, Surgeon, Sergeants, Patrolmen, Gate Keepers, Special Patrol- men and Police Tailors ..	\$82,231 20
For Purchase of Uniforms and Supplies.....	10,000 00
	<hr/>
	\$92,231 20

We have about 95 policemen to take care of the Central Park and forty other Parks and Places. Total acres of Parks and Places 1,103 ⁸²²/₁₀₀₀ths acres. A principal duty is the the care of the City property, to prevent damage and destruction. Riverside Park, three miles long, and Morningside Park call particularly for protection, as a great deal of property is liable to damage.

Labor, Maintenance and Supplies—For all supplies, and for wages of laborers receiving less than \$2.00 per day, employed on works maintenance, excepting those employed

in the Zoological Department, and including the maintenance of the Meteorological Observatory	\$235,929 00
For salaries and compensation of employees receiving \$2.00 per day and upwards.....	64,071 00
	<hr/>
	\$300,000 00

This is the most important item of park work. It includes the roads, the paths, the turf, trees, shrubs and flowers. Neglect produces injury that it costs a great deal to repair, and the Central Park is suffering now greatly from former neglect, and a great deal of work demands immediate attention.

An increased appropriation over that of the year 1880 is absolutely necessary.

Zoological Department—For the keeping, preservation and exhibition of the collection in the Zoological Department of the Central Park, including repairs of buildings used for that purpose..... \$18,000 00

This is an exhibition which has proved most popular and attractive, and so long as it is kept up, the animals must be well fed and warmly housed, and the buildings and cages kept in complete repair.

Maintenance of Museums—For the keeping, preservation and exhibition of the collection in the American Museum of Natural History and the Metropolitan Museum of Art..... \$30,000 00

This amount is provided for by law for these institutions, which have been established by the City.

Music—Central Park	\$3,000 00
Music—Battery Park	3,000 00
	<hr/>
	\$6,000 00

This music furnishes a popular entertainment, to which the people are entitled.

By reason of a favorable arrangement for music on the Battery Park by an amateur band, it cost less than the music in the Central Park, and the appropriation should be divided as follows, as it was when transmitted to the Board of Aldermen :

Central Park	\$4,000 00
Battery Park	2,000 00
	<hr/>
Harlem River Bridges—Repairs, Improvements and Maintenance, excluding salaries and compensation of all persons receiving \$2.00 per day and upwards	\$20,000 00
For salaries and compensation of employees re- ceiving \$2.00 per day and upwards	5,000 00
	<hr/>
	\$25,000 00

The four bridges are essential for communication between dense masses of population.

Three of them are much dilapidated, and require very heavy repairs, because the Board of Estimate and Apportionment have heretofore refused appropriations to rebuild them. It would have been more economical to rebuild them than to make such heavy repairs. Two of them are drawbridges which require constant attention. It would save money in the end to rebuild some of them.

Maintenance—Twenty-third and Twenty-fourth Wards.

---	----------

These appropriations are all supported by petitions from property-owners representing great wealth and large areas of property.

The tax valuations in these two Wards for 1880 are \$22,901,-985, and the taxes for that year are \$579,323.09.

These property-owners are entitled to have a respectable portion of that sum expended in their own district. The areas of these two Wards is 258 acres less only than Manhattan Island. Excluding the parks and places on Manhattan Island, the area of these two Wards is 693 acres larger. It is not fair towards these property-owners that in addition to paying for work on their own district, they should be compelled to pay for work on Manhattan Island. It would be more just if Manhattan Island helped them, because if this district is improved by better roads, etc., it will support a larger amount of taxation, and thus benefit the whole City.

The general maintenance of \$50,000 covers 180 miles of streets and avenues in actual use. Broadway and Sedgwick avenue are leading thoroughfares, are in poor condition, and should be put in good order. One bridge over the Bronx river has been rebuilt of iron, the other six bridges are of wood, are in a dilapidated condition, and dangerous. There is greater economy in rebuilding them of iron, than in spending money in propping them up when they are past repair.

The surveying, laying out, and monumenting must be completed, because the property-owners are disposed to improve their property, and must have the new streets and avenues laid out and monumented, so that they can find their property lines upon the ground. The laying out is nearly completed, and the mapping and monumenting must be carried on. This is the constant and pressing demand of the property-owners.

The making of maps of these two Wards for the Department of Taxes and Assessments, under a special act of the Legislature, is a duty imposed upon this Department, because from its materials on hand they can be made at a slight expense.

The result will be a great advantage to the City in bringing all the property under taxation by exact measurement, for want of which much of it has escaped taxation, and more of it is in great confusion.

The cleaning of sewers and drains is required by the Health Department, and is work that cannot be avoided. The surveys and maps for Commissioners of Estimate and Assessment in street opening cases is a duty imposed by an act of Legislature of 1880, and is obligatory.

The surveys and plans for projected sewers and drains, and the maps for acquiring the right of way for drains is of the greatest importance.

The great impediment in the settlement of the Twenty-third and Twenty-fourth Wards is its unhealthfulness, from malaria. Good drainage is the single remedy. These plans and surveys will provide for it at a light charge, for unless an economical plan and system of thorough drainage can be ascertained and adopted it will be useless to expect the natural growth of the City to extend over this district.

Manhattan Square, Improvement of, excluding salaries and compensation of all persons receiving \$2.00 per day and upwards, and including salary of one foreman, not to exceed \$700 per annum..... \$50,000 00

This is now a part of the Central Park, and is now already adorned by an expensive museum. The grounds are very rough and unsightly, as well as unhealthy, and should be put in order as a park, and fenced in.

Walks, City Parks—For laying new and repairing old walks in the City parks and places, excluding salaries and compensation of all persons receiving \$2.00 per day and upwards..... \$50,000 00

Some portion of this work has been done in the last few years, and it can be seen how necessary an improvement it is. All the walks in and around the City parks should be laid and repaired with the Trinidad Asphalt pavement, which has been tested, and proved to be the most durable and economical.

Walks, Central Park—For laying new walks, and repairing the old walks in Central Park, including resetting curb and laying new walk on the broad walk, north side of Fifty-ninth street, between Fifth and Eighth avenues, excluding salaries and compensation of all persons receiving \$2.00 per day and upwards..... \$100,000 00

An estimate has been made for the side-walks on the four sides of the Central Park, and for all the walks within it which are not now paved or in good order, and it is found that it will require an expenditure of \$530,000.

The condition of the Central Park depends largely to a visitor upon the cleanliness and good order of its walks, and much of the criticism upon it is on account of their bad state of repair; very little money has been expended in the last five years, and a beginning should be made upon this important work.

Riverside Park, Improvement of, including the avenue, filling in, grading, drainage, maintenance and repairs, excluding salaries, and compensation of all persons receiving \$2.00 per day and upwards.....	\$42,000 00
For salaries and compensation of employees receiving \$2.00 per day and upwards.....	8,000 00
	<hr/>
	\$50,000 00

This park is over three miles long, with an avenue bordering upon and running through it. It is a natural slope towards the Hudson river, covered with many fine old trees. It needs to be drained; to have some grading and filling for the sake of its healthfulness. The trees should be cared for. Walks should be laid out through it to make it accessible, and to bring to the public enjoyment its groves and points of extended prospect. This park should be kept in a natural condition, and a slight expenditure in improving it will make it contribute very largely to the public enjoyment.

Which was ordered to be printed in the minutes.

BOARD OF ESTIMATE AND APPORTIONMENT.

CITY OF NEW YORK.

MAYOR'S OFFICE, }
CITY HALL. }

WEDNESDAY, DECEMBER 29, 1880—12 o'clock M.

The Board met in pursuance of an adjournment.

Present—The following members, viz. :

EDWARD COOPER, *the Mayor of the City of New York.*

ALLAN CAMPBELL, *the Comptroller of the City of New York.*

JOHN J. MORRIS, *the President of the Board of Aldermen.*

HENRY E. HOWLAND, *the President of the Department of Taxes
and Assessments.*

On motion, the reading of the minutes of the meeting held December 28, 1880, was dispensed with.

The CHAIRMAN moved that the Counsel to the Corporation, or his Assistant, be requested to be present for consultation relating to the Final Estimate for 1881.

Which was agreed to.

Hon. Thomas Costigan, Supervisor of the *City Record*, appeared before the Board and made a statement relative to the estimate for "Advertising, Printing and Stationery."

Mr. David J. Dean, Assistant Counsel to the Corporation, appeared before the Board, and in compliance with a resolution, adopted at meeting held December 24, "requesting the Counsel to the Corporation to inform this Board whether, in his opinion, the Board could legally insert in the Final Estimate an appropriation for Exigencies, to be used only upon the action of this Board," submitted a verbal opinion to the effect that such an appropriation would not be in accordance with the law.

The CHAIRMAN presented the following opinion :

LAW DEPARTMENT,
OFFICE OF THE COUNSEL TO THE CORPORATION, }
NEW YORK, December 29, 1880.

HENRY E. HOWLAND, Esq.,

Secretary of the Board of Apportionment :

Sir,—I have received the resolution of the Board of Apportionment, adopted on the 27th instant, as follows :

" *Resolved*, That the Counsel to the Corporation be requested to inform the Board whether the specific appropriations for the Police Department, under the general heading 'Police Department,' are transferable from one specific purpose therein mentioned to another by the Police Board, without the action of this Board, and, the Board of Police having appointed two Captains (including one Captain restored by action of the courts) in excess of the number for which the appropriation for 1880 was made, whether this Board is compelled to make an appropriation for 1881 sufficient to cover the additional expenditure incurred."

I answer the inquiries propounded in said resolution as follows :

1. The Charter, in section 112, provides : That the sums included in the Final Estimate signed by the members of the Board of Apportionment, shall " be and become appropriated for the purposes and Departments therein named."

The transfer of funds from the purpose to which they have been appropriated, to other purposes in the same Department, is expressly provided in the same section, to be made by permission of the Board of Apportionment.

I therefore advise that the specific appropriation for the Police Department under the general heading " Police Fund," are not transferable from one specific purpose to another by the Police Board without the action of the Board of Apportionment.

2. The act, chapter 755, Laws of 1873, empowers the Board of Police to appoint Police Captains, not exceeding in number one to each fifty of the total number of patrolmen.

It is the duty of the Board of Apportionment to provide the salary fixed by law for each captain appointed within the limit defined by the statute.

Therefore, if the increase of the number of Captains mentioned in your resolution is within the limit defined by the statute, the Board should make an appropriation for 1881 sufficient to cover the additional expenditure named.

I am, sir, yours respectfully,

WILLIAM C. WHITNEY,

Counsel to the Corporation.

Which was ordered to be printed in the minutes.

The PRESIDENT OF THE DEPARTMENT OF TAXES AND ASSESSMENTS appeared and took his seat in the Board.

The CHAIRMAN offered the following resolution :

Resolved, That the Counsel to the Corporation be requested to inform this Board whether the Police Board have power to appoint officers and patrolmen, under chapter 755 of the Laws of 1873, in excess of the appropriation made for salaries, and whether this Board is bound to appropriate funds in subsequent years to pay the salaries of members of the Police Force so appointed.

Which was agreed to.

The Board proceeded to the consideration of the estimate for the Police Department.

S. C. Hawley, Chief Clerk, and George W. Walling, Superintendent of the Police Department, appeared and made statements relative to the estimate for the said Department.

The Board took a recess for half an hour.

The Board re-assembled at 2.30 o'clock P. M.

Present—All the members.

The CHAIRMAN presented the following communication :

GRAND JURY ROOM, October 29, 1880.

To, Hon. FREDERICK SMYTH, *Recorder* :

The attention of the Grand Jury having been called by the President of the Police Department to the necessity of increasing the force of said Department, it called before it Superintendent Walling, Hon. Edward Cooper, Mayor, and Hon. John Kelly, Comptroller, and after mature deliberation, it adopted the following :

Resolved, That we are fully impressed with the necessity of an increase in the patrolling force of the Police Department, and, upon consideration, we are of the opinion that this measure can be attained without an increase of the numerical force of the Department, as proposed by President French, by a reduction of, and a redistribution of, the special detail force.

(Signed)

CHAS. H. HASWELL,
Foreman.

Which was ordered to be printed in the minutes.

Sir,—At your request, I report in writing the substance of the conversation which I have just had with you in regard to the sums which will be required for the maintenance of the bridges over the Harlem river.

1st. The Central Bridge.—I reported to the Board last summer that the approaches to the draw span could not be maintained another year, and that new approaches should be built early in the ensuing year, which work, if done in the cheapest, safe manner, would cost about \$20,000. The draw span and machinery of this bridge is in tolerable good repair, but it is liable at any time to be run into by a vessel, which would cost, perhaps, \$5,000 more to repair.

The truss and the moving machinery are also liable to the usual failures in half-worn works, and a sum of at least \$1,000 should be provided for that repair.

2d. The Third Avenue Bridge.—I have reported to the Board that the flooring of this bridge was greatly decayed, and must be replaced next season, at a cost of \$4,500.

If the Horse Railroad Company surrender their grant for crossing this bridge, the Commissioners would be compelled to ~~make~~ that expenditure.

The draw-span is liable to be struck by vessels. It is, however, of iron, and would not be so seriously injured as a wooden bridge.

The sum of \$1,000 ought to be provided for the repairs of next year, in addition to the new flooring above mentioned.

3d. The Farmers' and Kingsbridge bridges are old wooden structures, and will probably require at least \$1,000 for repairs next season.

4th. The two bridges over Cromwell's creek are together 1,000 feet long, and are in the last stages of their existence. A sum of at least \$2,500 should be provided for them.

Respectfully,

(Signed)

WILLIAM J. McALPINE,

Engineer of Construction.

CHAPTER 74, 1866.

AN ACT to create a Metropolitan Sanitary District and Board
of Health therein, for the Preservation of life and health,
and to prevent the spread of disease.

Passed February 26, 1866; three-fifths being present.

SEC. 16. And said Board shall use all reasonable means for
ascertaining the existence and cause of disease or peril to life
or health, and for averting the same throughout said district,
and shall promptly cause all proper information in possession
of said Board to be sent to the local health authorities of any
city, village, or town in this State which may request the same,
and shall add thereto such useful suggestions as the experience
of said Board may supply. And it is hereby made the duty of
said health authorities to supply the like information and sug-
gestions to said Metropolitan Board of Health. And said
Board may take measures and supply agents, and afford in-

duancements and facilities for general and gratuitous vaccination and disinfection, and may afford medical relief to and among the poor of said district, as in its opinion the protection of the public health may require, and may remove or cause to be removed to a proper place within said district, to be by them designated, any person sick with small-pox or other contagious disease.*

And in the presence of great and imminent peril to the public health in said district, by reason of impending pestilence, it shall be the duty of said Board to take such measures, and to do and order, and cause to be done, such acts and make such expenditures (beyond those duly estimated for or provided) for the preservation of the public health (though not herein elsewhere or otherwise authorized), as it may in good faith declare the public safety and health to demand, and the Governor of the State shall also in writing approve. But the exercise of this extraordinary power shall also, so far as it involves such excessive expenditures, require the written assent of at least six members of the Board. And such peril shall not be deemed to exist except when, and for such period of time as, the Governor of the State, together with said Board, shall declare by proclamation the same to exist or continue.

BOARD OF ESTIMATE AND APPORTIONMENT.

CITY OF NEW YORK.

MAYOR'S OFFICE, }
City Hall. }

THURSDAY, DECEMBER 30, 1880—12 o'clock M.

The Board met in pursuance of an adjournment.

Present—All the members, viz. :

EDWARD COOPER, *the Mayor of the City of New York.*

ALLAN CAMPBELL, *the Comptroller of the City of New York.*

JOHN J. MORRIS, *the President of the Board of Aldermen.*

Absent—

The President of the Department of Taxes and Assessments.

The minutes of the meetings held December 28th and 29th were read and approved.

Mr. Jas. F. Ruggles appeared before the Board and made a statement relative to Manhattan square.

Mr. H. N. Beers appeared and made a statement relative to the same.

The CHAIRMAN presented the following communications :

OFFICE OF CITY RECORD, }
December 2, 1880. }

Hon. EDWARD COOPER, *Mayor* ; Hon. WILLIAM C. WHITNEY,
Counsel to the Corporation ; Hon. HUBERT O. THOMPSON,
Commissioner of Public Works :

Gentlemen,—The close of this year finds almost every court and department in the City wholly destitute of stationery, blanks, etc. In several cases heads of bureaus, judges, and commissioners have been compelled to pay out of their own pockets for the printing and stationery necessary to the proper conduct of the public service.

I, therefore, respectfully ask that you request the Board of Estimate and Apportionment to increase the appropriation for "Printing, Stationery, and Blank Books" for the year 1881 to the sum of \$125,000.

The expenditures under this head during the years 1875-79, inclusive, amounted to \$643,735, or an average of \$128,755 per year.

The amount expended last year was \$105,000, and the appropriation for this year is \$110,000.

It is not, therefore, surprising that the stock on hand has run so low as to materially impede the transaction of public business.

But this is not all.

Within the past two years the advance in the price of the finer grades of paper which is used in the manufacture of blank books has been 15 per cent. to 20 per cent. ; the increased cost of leather, boards, etc., has been greater, making altogether an increased cost of 25 per cent. in the raw material.

The proportion of the appropriation for printing, stationery, and blank books consumed in the purchase of blank books for

the several departments of the City government is nearly one-half of the entire amount.

The cost of first-class writing paper has increased in nearly the same ratio.

The wages of printers have not advanced, but there is a movement on foot in the trade which may result in higher wages.

Under the circumstances, I think the increase asked for is reasonable, and I hope this request will meet your approval.

Very respectfully,

THOMAS COSTIGAN,
Supervisor City Record.

At a meeting of the Mayor, Counsel to the Corporation and Commissioner of Public Works, held at the Mayor's office, December 29, 1880, in relation to *City Record*, and printing and supplies of stationery, after reading and filing the accompanying report of the Supervisor of the *City Record*, the following resolution was adopted by the concurrent vote of these officers :

Resolved, That the Board of Estimate and Apportionment be respectfully requested to fix the amount of the appropriation "Printing, Stationery and Blank Books" for the year 1881 at the sum of \$125,000.

EDWARD COOPER,
Mayor.

W. C. WHITNEY,
Counsel to the Corporation.

HUBERT O. THOMPSON,
Commissioner of Public Works.

Which were ordered to be printed in the minutes.

On motion, the Board proceeded to the consideration of the Estimate for the Department of Public Parks.

S. H. Wales, Esq., Commissioner of the Department of Public Parks, appeared and made a statement in relation to the estimate for the said Department.

On motion, the Estimate for the Police Department was taken up for consideration.

Mr. S. B. French, President of the Police Department, appeared before the Board and made a statement relating to the estimate for the said Department.

Mr. S. C. Hawley, Chief Clerk, Police Department, appeared and made a statement relative to the same.

The various items in the Provisional Estimate for the Police Department were taken up and discussed separately, and unanimously agreed upon, except as follows :

The CHAIRMAN moved that the item "Supplies for Police" be divided, as follows :

"Supplies for Police"	\$60,000 00
"Expenses of Detectives and Patrolmen, and execution of criminal processes and contingent expenses	5,000 00

Which was agreed to.

The CHAIRMAN presented the following communication :

POLICE DEPARTMENT OF THE CITY OF NEW YORK, }
December 29, 1880. }

To the Board of Estimate and Apportionment :

Gentlemen,—The following is submitted in place of items in the Departmental Estimate, entitled "For Salaries of Clerks,

Deputies, Stenographers, Superintendent of Telegraph, Telegraph Operators, Messengers, Cleaners, Steamboat, and other employees " :

For Salaries of Chief Clerk, First Deputy, Deputies, Stenographers, Clerk of Superintendent, Property Clerk, and Treasurer's Book-keeper.....	\$46,500 00
For Salaries of Superintendent of Telegraph, Telegraph Operators, Telegraph-line man, and Battery boy.....	8,000 00
For Salaries and Wages of Janitor, Messengers, Matron, Laborer, Cleaners at Central Department, Hostlers for Mounted Police, and Employees on Steamboat.....	9,500 00

Respectfully,

S. B. FRENCH,
President.

NEW YORK, December 29, 1880.

To the Board of Estimate and Apportionment :

Gentlemen,—If the appropriations for the the above are made in three separate items, it will rest with the Commissioners to expend the money in accordance with the same.

The total amount expended for the year 1880, for "Salaries of Clerks, Deputies, Stenographers, Superintendent of Telegraph, Telegraph Operators, Messengers, Cleaners, Steamboat and other employees," amounted to the sum of \$74,769.32, 10 per cent. of this sum equals \$67,292.39. The Board of Police also request that the item in "Supplies for Police," viz.: Expenses of detectives and patrolmen, and the execution of criminal processes and contingent expenses, be stricken from the amount, and a separate appropriation made for the amount required,

say \$5,000, and that the appropriation for "Supplies for Police" be made 58,000, also that the sum in the Departmental Estimate for "Alteration, Fitting up, Additions to and Repairs of Station Houses" be reduced from \$20,000 to \$16,000, and that the sum of \$53,000 be allowed for "Supplies for Police."

Respectfully,

S. B. FRENCH.

President.

Which were ordered to be printed in the Minutes.

LAW DEPARTMENT,
OFFICE OF THE COUNSEL TO THE CORPORATION, }
NEW YORK, December 31, 1880. }

To the Honorable the Board of Estimate and Apportionment :

Gentlemen,—I have the honor to acknowledge the receipt of the resolution passed by the Board this day, requesting to be informed whether it is the "duty of the Board of Estimate and Apportionment to include in the Final Estimate for the year 1881 provision for the payment of sums which are legal charges against the City, which have accrued during the year 1880, or previous years, for the payment of which no provision has been made."

It frequently occurs that liabilities are created against the City in excess of any existing appropriation for the year. The Board of Estimate and Apportionment, by section 112 of the charter, are required to put in their estimate "the amounts required to pay the expenses of conducting the public business of the City and County of New York, in each department and

branch thereof, and the Board of Education, for the then next ensuing financial year."

It is a part of the public business of the year 1881 to discharge any legal obligations of the City which have accrued and are now payable, or are to accrue during the year. If they are debts which could be recovered against the City, they ought to be provided for, though incurred in previous years.

I am, gentlemen, yours respectfully,

WILLIAM C. WHITNEY,

Counsel to the Corporation.

HEALTH DEPARTMENT, No. 301 MOTT STREET, }
NEW YORK, December 31, 1880. }

To the Board of Estimate and Apportionment :

Gentlemen,—The experience of the last few weeks renders it imperative to make some provision in the appropriations for the Health Department for the possible increase in contagious diseases. For several years contagious diseases have been well under control, but within a few weeks many cases of small-pox have been imported from foreign countries and from neighboring cities. Our hospital is full, and we have been obliged to provide tents for temporary relief. If any considerable increase in these diseases occurs, we shall be unable, with the present accommodations, to receive the cases, and it is not possible to estimate the harm that would result to the City. We believe that the time has come when adequate provision should be made for the care of contagious diseases.

The accommodations at the lower end of Blackwell's Island are too restricted, and afford no space for additional pavilions. This Board has been placed in possession, by the Sink-

ing Fund Commission, of North Brothers Island. There is already one pavilion upon the island, and means should be furnished for erecting additional pavilions and providing other necessary equipments. If no such provision is made in the appropriation for 1881, and our fears of a considerable increase in contagious diseases should be realized, the only alternative will be to avail ourselves of the special provision of the law provided for such cases, and have the City declared to be in a condition of peril from impending pestilence, when we should then be authorized to incur any expense that may be necessary.

Your Board can estimate the enormous pecuniary injury which the business interests of the City would sustain from such a public declaration.

We have already placed before you the estimate of the probable expense of providing in due time for this emergency

Respectfully yours,

C. F. CHANDLER,

E. G. JANEWAY,

Health Commissioners.

The PRESIDENT OF THE DEPARTMENT OF TAXES AND ASSESSMENTS presented the following communication and opinion:

COUNTY CLERK'S OFFICE—NEW COUNTY COURT HOUSE, }
NEW YORK, December 31, 1880. }

To the Honorable the Board of Estimate and Apportionment:

Gentlemen,—I am informed by the Comptroller that deficits exist in the appropriations for the pay-rolls of the Supreme Court and County Clerk's Office, for the year 1880, viz.:

In Supreme Court of \$2,108.38.

In County Clerk's of \$2,649.58.

The deficit of Supreme Court pay-roll is occasioned by an act of the Legislature, appointing an additional stenographer, at a salary of \$2,500 per year. See Laws of 1880, chapter 54.

The deficit in County Clerk's pay-roll is occasioned by estimate for the year 1880, prepared by the then County Clerk, providing for the payment of five recording clerks, at a salary of \$1,200 per year, instead of eight as authorized by resolution of Board of Supervisors, passed November 24, 1869.

I respectfully ask that appropriate action be taken in the premises by your Honorable Body.

Very respectfully yours,

WILLIAM A. BUTLER,

Clerk of the City and County of New York

December 31, 1880.]

LAW DEPARTMENT,
OFFICE OF THE COUNSEL TO THE CORPORATION, }
New York, December 31, 1880.

To the Honorable the Board of Estimate and Apportionment :

Gentlemen,—I am in receipt of the letter of the County Clerk of December 31, addressed to your Honorable Board, informing you of a deficiency in the appropriation for the Supreme Court, for the year 1880, of \$2,108.38, occasioned by the appointing of an additional stenographer, at a salary of \$2,500 per annum, pursuant to chapter 54 of the Laws of 1880.

Also of a deficiency in the County Clerk's pay-roll, occasioned by the fact that the appropriation for the year 1880 provided only for the payment of five recording clerks, at a salary of \$1,200 per year, instead of eight, as authorized by resolution of the Board of Supervisors, passed November 24, 1869, and requesting appropriate action to be taken by your Honorable Body.

Pursuant to your request for my opinion as to your duty in the premises, I advise you :

First.—That the provisions of chapter 54 of the Laws of 1880, above cited, are imperative, and require the appointment of a stenographer.

That such stenographer, by virtue of the act, acquires a right to the salary fixed by law, and it is therefore the duty of your Board to provide funds to pay the same.

Second.—The resolution of the Board of Supervisors, approved November 24, 1869, of which a copy is herewith transmitted, duly certified, conferred upon the County Clerk continuing authority to employ the six additional clerks therein named.

I am informed that prior to the passage of the resolution,

two recording clerks were employed, making a total of eight clerks whom the County Clerk had authority to employ.

Though the appropriation for 1880 included only salaries for five clerks, yet the action of the Board does not suspend the authority of the County Clerk, acquired by statute, and the above-recited resolution of the Board of Supervisors. Consequently, the employment of eight clerks during the year by the County Clerk, although at the commencement of the year he may, in good faith, have supposed that a lesser number would be insufficient, seems to me to constitute a valid employment, and the clerks so employed acquire a legal right to their salaries.

It follows, therefore, that your Board should make appropriate provision for the payment thereof.

I am, gentlemen, yours respectfully,

W. C. WHITNEY,
Counsel to the Corporation.

Which were ordered to be printed in the minutes.

Which was agreed to.

The Board took up the Estimate for the Finance Department for consideration.

The COMPTROLLER presented the following Revised Estimate :

CITY OF NEW YORK—DEPARTMENT OF FINANCE, }
COMPTROLLER'S OFFICE, December , 1880. }

To the Board of Estimate and Apportionment :

The Departmental Estimate of the amount required for the support of the Finance Department in the year 1881, has been revised, and I respectfully submit a re-estimate of the amount required for said year.

The actual expense of salaries in the Finance Department in 1880, is \$194,163.49 exclusive of the amount paid the Chamberlain, fixed by law, as shown by the following statement :

Salary for Comptroller	\$10,000 00
Salaries of Officers and Subordinates of the Department	\$177,640 49
Salaries — Temporary Clerks employed in the office of Tax Receiver.....	6,523 00
	<hr/> 184,163 49
Total.....	<hr/> <u>\$194,163 49</u>

The services of a number of persons employed in the Finance Department when the present Comptroller came into office have been dispensed with, and under the authority of chapter 521 of the Laws of 1880, the following named bureaux in that Department have been consolidated, viz. :

1. "The Bureau for the Collection of Assessments" and the "Bureau for the Collection of Arrears of Taxes and Assessments and of Water Rents," to form one bureau.

2. "The Bureau of City Revenue" and the "Bureau of Markets," to form one bureau.

A considerable reduction will thus be made in the aggregate amount required for the support of the Finance Department in 1881.

The subject of consolidating bureaux in the Finance Department is under consideration, "to bring together all officers and bureaux authorized to receive money for taxes, assessments and arrears, in such manner that the payment of the same can be made, as nearly as practicable, at one time and place, and in one office," as provided for by section 28 of the Charter of 1873.

A further reduction of expenses may thus be effected, probably, but careful examination is necessary to determine how far such consolidation is practicable. It cannot be made immediately, and legislative authority may be required.

The following is the revised estimate of the Finance Department, for the year 1881 :

REVISED ESTIMATE OF THE FINANCE DEPARTMENT FOR 1881

Expenses of Conducting the Department.

For Cleaning Markets.....	\$25,000 00
“ Contingencies, Comptroller’s Office.....	7,500 00
“ Salaries, Finance Department :	
Salary of the Comptroller, as provided by chapter 521, Laws of 1880.....	\$10,000 00
Salaries of the attaches of the De- partment.....	127,000 00
Salaries of Temporary Clerks required in the Bureau for the Collection of Taxes, in October, November and December	5,870 70
	<hr/> 142,870 70
For Salaries, Chamberlain’s Office.....	30,000 00
	<hr/>
Total.....	<u><u>\$205,370 70</u></u>

In the above revised estimate for 1881, the sum of \$127,000 is substituted in the item of “Salaries of Attaches of the Department,” for the sum of \$156,060, and \$5,870.70 is substituted in the item of “Salaries of twenty-five Temporary Clerks,” for the sum of \$5,940, In the item of “Cleaning Markets,” the sum of \$25,000 is substituted for \$31,000, making a total reduction of \$35,120.30 on the Departmental Estimate for 1881, and of about \$53,000 less than the expenditures for 1880.

Chapter 521, Laws of 1880, fixes the amount to be paid to the Chamberlain who may be hereafter appointed, at \$25,000. The term of the present incumbent of the office of Chamber-

lain expires on May 1, 1881, but to provide against the contingency of no appointment being made before that date, the sum of \$30,000 is included in the foregoing estimate for the year 1881.

Very respectfully,

ALLAN CAMPBELL,

Comptroller.

Dated New York City, Mayor's Office, December 31, 1880.

EDWARD COOPER,

Mayor.

ALLAN CAMPBELL,

Comptroller.

JOHN J. MORRIS,

President of the Board of Aldermen.

HENRY E. HOWLAND,

*President of the Department
of Taxes and Assessments.*

*Board of Esti-
mate and Ap-
portionment.*

Which was adopted by the following vote :

*Affirmative—The Mayor of the City of New York (Chairman),
the Comptroller of the City of New York, the
President of the Board of Aldermen, and the
President of the Department of Taxes and Assess-
ments—4.*

The COMPTROLLER offered the following preamble and resolution :

Whereas, The Board of Aldermen, at a meeting held on November 22, 1880, made certain objections to and rectifications of the Provisional Estimate for the year 1881, which were presented to the Board of Estimate and Apportionment on December 8, 1880 ; and

Whereas, The Board of Estimate and Apportionment duly considered such objections and rectifications, as provided by Section 112 of the Laws of 1873 ; and

Whereas, The Board of Estimate and Apportionment, in making the final estimate for the year 1881, at a meeting held on December 31, 1880, overruled the objections and rectifications made by the Board of Aldermen in some cases, and agreed to and adopted them in one case ; therefore

Resolved, That the reasons for each action by the Board of Estimate and Apportionment, in regard to each item, are as follows :

Department of Public Parks—items of “ Surveys and Maps,” “ Preliminary Surveys and Maps,” and “ Maps and Drains ”—strike out the word “ excluding ” before the word “ salaries,” in each, and insert in lieu thereof the word “ including.”

This was overruled as unnecessary, the Board of Estimate and Apportionment having changed the form of the items of appropriation referred to.

Department of Public Parks—item of “ Music in Central Park,” \$4,000, reduced to \$3,000—item of “ Music in Battery Park,” \$2,000, increased to \$3,000.

This was overruled for the reason that an appropriation of \$5,000 was made under the title of appropriation "Music, Central Park and Battery Park."

Police Department—Police Fund :

Provisions made for one more Captain—appropriation increased to \$74,000.

This was agreed to, as the same was considered necessary.

Provision made for one more Sergeant—appropriation increased to \$225,600.

This was overruled for the reason that provision was made for four additional Sergeants, instead of one.

Provision made for one hundred more Patrolmen—appropriation increased to \$2,757,200.

This was overruled for the reason that the sum of \$2,720,000 was provided for the pay of Patrolmen, which was deemed sufficient for the purpose.

Appropriation for salaries of Clerks, Stenographers, Telegraph Superintendent and Operators, etc., increased from \$54,000 to \$60,912.

This was overruled for the reason that the appropriation for the salaries of the persons named was divided up into several separate items of appropriations.

Miscellaneous purposes—new item of appropriation added, viz.: "For Compensation of Commissioners for Codifying the City Ordinances," \$5,000 ; "For Clerk, Rent, Stationery, etc.," \$1,200.

This was overruled, and a new item of appropriation was inserted in place thereof, entitled "Codifying the City Ordinances—For Compensation of Commissioners, Clerk-hire, Rent, Stationery and all other expenses," \$5,000, which was believed to be sufficient for the purpose.

Which were adopted by the following vote :

Affirmative—The Mayor of the City of New York (Chairman), the Comptroller of the City of New York, the President of the Board of Aldermen, and the President of the Department of Taxes and Assessments—4.

The CHAIRMAN moved that the Final Estimate be filed with the Comptroller.

Which was agreed to.

The CHAIRMAN moved that the Schedule of the names of all persons not within a Department, employed under the City Government, as received by the Board from the various officers, etc., be attached to the Final Estimate, as required by law.

Which was agreed to.

The CHAIRMAN moved that the said Schedule be filed with the Comptroller, and published in the *City Record*.

Which was agreed to.
